Nov 28th 2023

## Testimonial for Natural WILD HONEY.

I bought raw honey from Ms Deborah and was told that raw honey has antibacterial properties. So I tried for my bad persistent cough.

Would like to share my experience of taking raw wild honey. I bought the black honey because I was told it has more antioxidant. I took 3 tablespoons of raw honey - 1 morning, 1 afternoon and 1 night. Took it continuous for 3 days. 1 tablespoon each time. My cough which was persistent ceased for a few days after taking. Nevertheless it returned so I continued to take to wipe out the phlegms and bacteria in my throat and lungs. In the course of consuming I realised raw honey can treat stomach acid reflex as well.

Now my health is better. I am buying another set of raw honey to keep my health in perfect condition.

Thank you for this wonderful supplement and would not hesitate to recommend to people who are interested to try.

### 天然野生蜂蜜见证

我从黛博拉女士那里买了天然野生蜂蜜，并被告知天然野生蜂蜜具有抗菌特性。所以我尝试治疗严重的持续咳嗽。

我想分享一下我服用野生蜂蜜的经验。我买了黑蜂蜜，因为被告知它含有更多的抗氧化剂。我服用了3汤匙生蜂蜜，早上1次、下午1次、晚上1次。连续服用3天。每次1汤匙。服用后几天，我的持续咳嗽停止了。然而它又回来了，所以我继续服用它来清除喉咙和肺部的痰和细菌。在食用过程中我发现野生蜂蜜还可以治疗胃酸倒流。

现在我的健康状况好多了，我正在购买另一套野蜜以保持我的健康状况。感谢您提供这个精彩的补充，并会毫不犹豫地推荐给有兴趣尝试的人。

13<sup>th</sup> NOVEMBER 2023

I am a full time caregiver for my Dad since November 2021 and in the early 2023 I was told by my family doctor that I have high cholesterol but I did not take the cholesterol medicine though my family doctor recommended.

One day while I was window shopping in Chinatown Point, I saw this Natural Wild Honey counter and was curious about it and approached the staff (was hoping that I can get some supplement to lower my cholesterol). The staff was friendly and she gave me the brochure and other printed information. After reading them, I decided to give it a try as I need to stay healthy for my Dad and today I have already taking my 3<sup>rd</sup> bottle of Natural Wild Honey. I found that I felt alot after my 1st bottle (think is a form of detoxing) and now I realised that my stomach won't get bloated after taking food like glutinous rice which usually I do feel bloated easily. I will continue taking Natural Wild Honey till my next body check up for cholesterol result and looking forward to receive more benefits from it.

Thank you!

我自2021年11月起开始全职照顾我父亲，并在2023年初，我的家庭医生告诉我，我的胆固醇水平很高，但尽管我的家庭医生建议，我并没有服用胆固醇药物。

有一天，我在唐人街逛街时，看到了这个天然野生蜂蜜专柜，对此感到好奇，并找到工作人员（希望我能得到一些补充剂来降低胆固醇）。工作人员很友好，她给了我小册子和其他印刷信息。读完它们后，我决定尝试一下。

因为我需要保持健康，今天我已经服用了第三瓶天然野生蜂蜜。我发现我喝第一瓶后放了很多屁（认为是排毒的一种形式），现在我意识到吃了糯米等我通常很容易感到胀气的食物后，我的胃不会胀气了。我将继续服用天然野生蜂蜜，直到我下次身体检查胆固醇结果，并期待从中获得更多好处。

谢谢你！

We have been taking this honey for past six (6) years and this is a pure RAW honey rich in proteins & vitamin C. After taking this honey for all these years, we find it very pure & has helped me in strengthening my muscular tissues.

This honey has a natural ability to heal wounds & kill bacteria & we also use this as an eye drop to hydrate the eyes. Besides this it has improved my body immunity and very rarely we fall sick or even get cough and flu.

In addition, this thick texture of honey helps to lower the urge to cough & soothing for the throat. It also has anti microbial and anti-inflammatory properties which helped us to recover from Covid-19 within a few days which was a miracle.

My parents who are diabetic has also been taking this honey which has helped to improve their sugar level reading and also keep them healthy. I would recommend the honey to anyone who want to achieve a healthy lifestyle.

Thank you.

我们在过去的6年里一直服用这种蜂蜜，这是一种富含蛋白质和维生素 C 的纯野生蜂蜜。服用这种蜂蜜这些年来，我们发现它非常纯净，并帮助我增强了肌肉组织。

这种蜂蜜具有治愈伤口和杀死细菌的天然能力，也可以将其用作眼药水来滋润眼睛。除此之外，它还提高了我的身体免疫力，很少生病，甚至咳嗽和感冒。

此外，蜂蜜的口感有助于降低咳嗽的冲动并舒缓喉咙。它还具有抗菌和抗炎特性，可以帮助我们几天内从 COVID-19 中康复，这真是一个奇迹。

我患有糖尿病的父母也一直在服用这种蜂蜜，这有助于降低他们的血糖水平并保持他们的健康。我会向任何想要实现健康生活方式的人推荐蜂蜜。

谢谢。

My family and I have been long-time  
supporter of Natural Wild Honey.

Be it common flu, sore throat, cold,  
or general unwell, twice a day of  
honey would do the trick.

My dad especially is particularly weak.  
Some days when he's down with cough

it gets challenging to even sleep. But

when it happens we make him a cup

of hot honey and all's well and he

will be able to sleep through the night.

My mum and I take it regularly and

we hardly fall sick.

These days I also recommend people  
around me to give it a try as I strongly  
believe in the product.

我和我的家人一直是天然野生蜂蜜的长期支持者。无论是普通流感、喉咙痛、新冠病毒还是一般不适，每天两次蜂蜜就可以了。

我爸爸特别特别弱。有时，当他咳嗽时，甚至连睡觉都变得困难。但当这种情况发生时，我们给他泡了一杯热蜂蜜，一切都很好，他就能睡整夜了。我和妈妈经常服用，我们很少生病。

这些天我也推荐我周围的人尝试一下，因为我坚信这个产品。

I discovered a hidden gem - a honey shop in JEM (Jurong East) that exceeded my expectations. The honey they offer is not only delicious but also a fantastic value for money. The health benefits I've experienced since incorporating this honey into my routine are remarkable. From enhanced immunity to improved digestion, it has become a staple in my daily life.

Moreover, the service staff at the shop, Ms Esther, deserves applause for her friendliness and expertise. Her customer service goes beyond expectations, creating a warm and inviting atmosphere. Whether you're a honey enthusiast or a health-conscious individual, this honey shop is a must-visit. I highly recommend it for top-notch products and a delightful shopping experience. I will also continue to buy Natural Wild Honey from your shop to drink every morning since I like the taste very much. Normally I will mix two different flavor together to get a better taste and better health.

Raw wild honey offers a lot of natural benefits for my family. I used to cough a lot, ever since I started taking honey, my cough has reduced significantly. It is very effective for sore throat, cough and colds. I recently tried to use honey to treat burns and the wound seemed to heal faster.

My children like the taste too. They hardly fall sick. Whenever my kids get colds or cough, all I have to do is mix a tablespoon of honey with lukewarm water and it will do the trick.

As for myself, I take 1 tablespoon of honey straight off the spoon every morning and evening before bedtime. It helps me with my digestion and I sleep better at night.

Because of this, we hardly take medication because honey helps build immunity to fight diseases.

I strongly believe we reap the maximum benefits of honey.

野生蜂蜜为我的家人提供了很多天然益处。我以前经常咳嗽，自从开始服用蜂蜜后，咳嗽明显减轻了。它对于喉咙痛、咳嗽和感冒非常有效。我最近尝试用蜂蜜来治疗烧伤，伤口似乎愈合得更快。

我的孩子们喜欢这野生蜂蜜味道。他们很少生病。每当我的孩子感冒或咳嗽时，我所要做的就是用温水泡一汤匙蜂蜜就可以了。

至于我自己，我每天早上和晚上睡前直接喝一汤匙蜂蜜。它帮助我消化，让我晚上睡得更好。

正因为如此，我们几乎不吃药，因为蜂蜜有助于增强免疫力来对抗疾病。我坚信我们能从蜂蜜中获得最大的好处。

我喝蜂蜜已经很多年了，我想超过20年了。我尝试过很多类型和不同的蜂蜜。从有机到原始，从花卉到非常昂贵的类型，如麦卢卡高 UMF。我一直相信天然的，不上瘾或加工过的。我在唐人街时发现了天然野生蜂蜜，并且已经服用了三年多。我喜欢它的味道和好处。我以前每次躺在床上都会感到闷热和呼吸不畅。这导致我睡不好觉，并且因为我用嘴呼吸而感到口干。服用天然野生蜂蜜约两周后，我发现我的鼻子变干净了，呼吸也顺畅了。我也很少感冒，即使感冒了，也恢复得很快。我仍然相信大自然，我真的很喜欢这种天然野生蜂蜜

**我从2018年7月开始服用天然野生蜂蜜，连续服用五年了。我能感受到天然野生蜂蜜的功效，它把我经常出现的喉咙痛和口腔溃疡减少到一年一次，并且在过去的一年半里再也没有复发过。我坚信，只有天然的、生的、野生的蜂蜜才能产生帮助人体和免疫系统抵抗病原体的作用。**

**我会毫不犹豫地推荐朋友和亲戚食用蜂蜜来维持身体健康，但选择正确的蜂蜜来源也很重要。只有未经加工的、天然的、野生的蜂蜜才含有高营养价值的天然化合物，有益于我们的身体健康。**

**我感谢天然野生蜂蜜，我的总体健康状况保持在令人满意的范围内。**

27 November 2023

I was introduced by my friend to this Natural Wild Honey as she testified saying she felt good after taking it. I decided to buy for my husband as he is asthmatic. He coughs badly whenever he is infected by some flu virus and it gets worse when it approaches the end of the year due to the cold season. He needs to clear his throat every 2-3 hours which is irritating and disturbing.

After a month of taking it, I saw an incredible change in him. Amazingly, I do not hear the noise of him clearing his throat that often. Even though he still clears his throat, it has reduced significantly. In addition, he sleeps better at night now as an asthmatic patient has difficulty sleeping well at night. Most importantly, his immune system is stronger and he does not get flu viruses that easily.

In my opinion, Natural Wild Honey is an elixir of life. You can get the goodness out of it and able to lead a healthy and happy life. You will be happy only when your loved ones are healthy.

**我的朋友向我介绍了这种天然野生蜂蜜，说服用后感觉很好，我决定为我的丈夫购买，因为他患有哮喘。每当他感染流感病毒时，他就会咳嗽得很厉害，而且到了年底，情况会变得更糟。**

**由于寒冷季节。他每 2-3 小时需要清一次喉咙，这令人恼火和不安。服用一个月后，我看到他发生了令人难以置信的变化。令人惊讶的是，我没有经常听到他清喉咙的声音。尽管他还在清嗓子，但已经明显减少了。此外，他现在晚上睡得更好了，因为哮喘患者晚上很难睡好。最重要的是，他的免疫系统更强，不容易感染流感病毒。**

**在我看来，不知道哪一种蜂蜜是长生不老药。您可以从服用这蜂蜜中得到好处，并能够过上健康快乐的生活。只有当你所爱的人都健康时，你才会幸福。**

#### 天然野生蜂蜜见证

之前一次偶然的机会认识了这款蜂蜜，我已经有近10年空腹喝蜂蜜的习惯了。我尝试了很多品牌的蜂蜜，直到遇见这种天然野生蜂蜜，我想我再也不会改变了。我喜欢其纯正的配方和天然的味道。喝了几次后，发现我的皮肤变得更加透亮和健康。另外，上个月我生病了，一直咳嗽，喉咙痛，尝试多喝蜂蜜，三天后就痊愈了。它被吸收的速度更快，值得一试。

I have always been on the lookout for natural remedies to support my well-being and I can confidently say that incorporating Natural Wild Honey into my daily routine has been a game changer. I take it both in the morning and at night, and its transformative effects on my health have been great.

One of the most noticeable benefits has been its soothing effect on my throat. Whenever I feel a sore throat or a cough begin to surface, a spoonful of honey provides almost instant relief.

In addition, when faced with the discomfort of gastric reflux, a dose of honey calms the churning sensations in my stomach. It has provided relief without the need for harsh medications.

One of the most surprising revelations for me has been its effectiveness in promoting restful sleep. Taking honey before bedtime has become a nightly ritual, and it helps me drift into a more deep and restorative sleep.

I recommend incorporating Natural Wild Honey into your lifestyle; it is not just a sweet treat but a natural remedy that has truly made a positive impact on my overall health and vitality.

Yours Sincerely,

我一直在寻找自然疗法来支持我的健康，我可以自信地说，将天然野生蜂蜜融入我的日常生活中已经改变了游戏规则。我早上和晚上都服用它，它对我的健康产生了巨大的变革性影响。

最明显的好处之一是它对我的喉咙有舒缓作用。每当我感到喉咙痛或咳嗽时，一勺蜂蜜几乎可以立即缓解症状。

另外，当面临胃反流的不适时。一剂蜂蜜可以缓解我胃里的翻腾感觉。它无需使用刺激性药物即可缓解症状。

对我来说最令人惊讶的发现之一是它在促进安宁睡眠方面的功效，睡前服用蜂蜜已成为一种夜间仪式，它可以帮助我进入更深、恢复性的睡眠。

我建议将天然野生蜂蜜融入您的生活方式。它不仅仅是一种甜蜜享受，而是一种自然疗法，真正对我的整体健康和活力产生了积极的影响。

I started taking the honey after recommendation from my friend. I have 3 highs - high blood pressure, high cholesterol and high blood sugar. I have a hard time controlling it. even with medicines. With a <sup>slight</sup> change in lifestyle and consistent consumption of the honey, I finally see an improvement in my recent blood test and health scan. My arthritis & joint pains have improved too. I have started taking walks as my knees don't ache that much.

I will continue to take the honey and hopefully in the new year my next blood test will see another new low in the 3 highs.

I have been taking the dark honey for quite a while as I have very bad insomnia and flatulence issue. It can get as bad as stomach cramps due to flatulence. Since taking the honey, I find that sleep has been easier. My bowel movements are regulated and my flatulence issue has improved significantly.

My child takes the dark honey from time to time, especially when his immune system seems low. So far the number of times when he fell sick has dropped a lot in spite of the flu bug going around his class.

## **天然野生蜂蜜**

**我妈妈多年来一直咳嗽。直到两年前，已经看过几位西医或中医的医生。我遇到高文商店的销售人员承诺如果我妈妈服用蜂蜜，咳嗽症状就会改善。她尝试了不同种类的蜂蜜，但咳嗽仍然持续。因此，在尝试了这么多种类之后，我们还是回来购买天然野生蜂蜜。**

Hi, I am madam Ng. Out of all the flavours that Natural Wild Honey offers, my favourite is "DG" Honey. It is tasty and fit my palate well. My kids love it too!

Moreover, after consuming it for a period of around 2-3 months, I can even feel it positively impacting my health. For example, after daily consumption (of 1-2 tablespoons) of DG raw honey my overall LDL Cholesterol has dropped and maintained within the healthy range of below 2.5.

Additionally, it has also boosted my immunity containing highly nutritious vitamins such as vitamins B1, B2, B3, B5, B6, C & many other minerals. I have not had a runny nose or flu ever since I have started consuming DG raw honey. In fact, I have saved up on money to buy other supplements.

Last but not least, DG raw honey detoxifies my body aiding me in my constipation. I feel that my body is lighter and I highly recommend

my family members to consume DG daily as well

Thank You!

Yours sincerely,

Madam Ng

大家好，我是黄女士。在天然蜂蜜提供的所有口味中。我最喜欢的是DG蜂蜜。它很好吃，很适合我的口味。我的孩子们也喜欢它！

而且，在食用大约2至3个月后，我什至可以感觉到它对我的健康产生了很好的影响。例如，每天饮用1至2汤匙DG野蜜后，我的整体低密度脂蛋白胆固醇已下降并维持在2.5以下的健康范围内。

此外，它还含有高营养的维生素，如维生素B1、B2、B3、B6、C和许多其他矿物质，也增强了我的免疫力。自从我开始食用 DG 野蜜后，我就没有流鼻涕或流感了。事实上，我已经节省了用来买买其他补充品的钱。

最后但并非最重要的一点是，DG 野蜜可以为我的身体排毒，帮助我解决便秘。我感觉我的身体变轻了，强烈推荐。我的家人也每天吃DG。谢谢你！

I came across the Wild Natural Honey booth about 6 years ago and I tried the different honey from the young to the aged. She let me taste the honey and explained the differences of the honey, and also the dosage. I decided to try.

After a while, my daughter decided to give her children the young honey daily to boost their immunity. When they feel a little under the weather, my daughter makes honey lemon for them.

I, myself, take a teaspoon everyday. Frankly, I feel better and stronger. Honey is known to be a very good natural supplement and I can feel the difference in my immune system too. While my grandchildren prefers the young honey, I prefer the sweeter aged honey.

I strongly recommend Natural Wild Honey for everyone! The taste is good and makes you healthier!

大约六年前，我偶然发现了野生天然蜂蜜摊位，尝试了从幼蜜到老蜜的不同蜂蜜。她让我品尝她的蜂蜜并解释蜂蜜的差异和服用剂量。我决定尝试一下。

过了一段时间，我女儿决定每天给孩子们喝幼蜜，以增强他们的免疫力。当他们感觉有点不舒服时，我女儿就会为他们泡蜂蜜柠檬水。

我自己每天服用一茶匙。坦白说，我感觉好多了，也更强壮了。众所周知，蜂蜜是一种非常好的天然补充品，我也能感受到我的免疫系统的差异。

而我的孙子们更喜欢年轻的蜂蜜。我比较喜欢更甜的老蜜。  
强烈推荐天然野生蜂蜜给大家！味道好，让你更健康！

My family and I have been taking Natural Wild Honey for almost 3 years. My children between age 8 and 10 years old have been taking wild honey every morning before they go to school and back from school. Both of my kids usually get sick (flu or cough) at least once a month but now they do not. They feel very energetic and able to concentrate better on their studies as well as attending their daily school activities. I have also tried to share the benefits of this natural wild honey with our kids' classmate parents about these wonderful products. They are interested and would like to try it. In fact, some of the parents have already bought it and enjoying this natural wild honey benefits their health needs.

## Testimonial on Natural Wild Honey

My parents and I have been taking Natural Wild Honey for almost 4 years. We have been taking natural wild honey twice a day, a tablespoon once in the morning on empty stomach and once in the night before bed. This honey is good and natural. It suitable for all ages.

As the climate changed drastically, the weather became colder, both of my parents are having cough and phlegm issues since past few weeks, and this have adversely affected their sleep. I have pursued my parents to continue with the honey and their condition improved slowly and gradually. In fact, until today, they were fully recovered from their cough and phlegm issues and have better sleep.

My parents and I will continue to consume this wonderful honey which brings us great benefits to our good health and daily life. I have also recommended this honey to my siblings, relatives, colleagues and friends.

I am THJ from Charlton Park Estate.

My Father started letting me drink Natural Wild Honey when I had Covid-19 during 2022.

I did not take my Covid-19 vaccination and am not vaccinated to-date. During the first time

I was down with Covid-19, I still experienced some sore throat as I only started drinking Natural Wild Honey a few days after I got Covid. Other than that, I do not have any cough.

Since then, I have been drinking a spoonful of Natural Wild Honey on a daily basis each morning. During my mid-year exams in 2023, I was down with Covid-19 again. This time round, I immediately started drinking Natural Wild Honey in large quantities and frequency everyday until I recovered. Throughout the period, I did not experience any sore throat or cough, and only had fever for a few days. I could still have the energy to revise for my exams. After I recovered from Covid, I don't feel tired at all. I could still exercise as per normal.

Thank you Natural Wild Honey for bringing such wonderful

**从那时起，我每天早上都会喝一匙天然野生蜂蜜。在 2023 年中考期间，我再次感染了 Covid-19。这次，我立即开始每天大量、频繁地饮用天然野生蜂蜜，直到我康复。这段期间，我没有出现任何喉咙痛、咳嗽的症状，只是发烧了几天。我还有精力去复习考试。新冠康复后，我一点也不觉得累。我仍然可以像平常一样锻炼身体。**

I am Alden Chua from 232 Hengway Ave.  
After I started drinking Natural Wild Honey for a year,  
I started experiencing amazing benefits when I had to  
go for my Chemo treatment for my ~~lung~~ liver.

The doctor is supposed to inject the chemo directly  
into the liver but for certain constraints, had to  
spill over some into my lungs. As a result, I  
experienced severe pain and breathless from the huge  
amount of phlegm in my lungs.

At that point of time, I was still not informed  
of the spillover of the chemo into my lungs,  
therefore, I was unaware of the reasons for  
the pain and breathlessness.

I started drinking Natural Wild Honey in large  
quantities and frequency throughout each day for  
2 weeks until my lungs recovered. During  
this period, I started coughing out large quantities  
of phlegm many times each day very easily.  
This is amazing as I had never been able to  
cough out my ~~that~~ phlegm so easily. Later, I realised  
this was the working of Natural Wild Honey, which  
aided in purging out the toxins from my lungs.  
That is also when the doctor only informed me of  
the spillover! I am so fortunate to encounter this  
wonderful life save and am very grateful to Natural  
Wild Honey, and Andy Sue for introducing this product

I was introduced by my friend in 2020 to my this natural wild honey. Initially, I was a bit sceptical about its ... properties given that there were many varieties in the market.

Ever since I've tried eating it everyday, I've noticed these changes:

- sleep quality is better; I'm able to sleep 6-7 hours straight which I previously couldn't.
- I frequently have gastric problem due to stress / irregular meals but that has reduced since I ate this.
- relieve my itchy throat sometimes.

After eating this for close to 3 years, I definitely recommend you trying it.

I stay at Blk 102, #08-14, Jalan Rajah.

I have been drinking your Raw Honey for the past 5 years or more.

During these 5 years, I loved to drink this honey very much. Every day I drink at least 20ml of honey. These few years, I seldom get flu:

When I have sore throat, I will drink concentrated honey and I recover faster.

When I feel 'dry' eye, I apply to my eyes for about two days, my eyes feel so much better.

But when I apply medicine instead, it will take weeks to feel better.

Lee N.S.

在這5年裡，我非常喜歡喝這種蜂蜜。我每天至少喝20毫升蜂蜜。這幾年，我很少感冒了。當我喉嚨痛的時候，我會喝濃縮蜂蜜，恢復得更快。

當我感覺到眼睛「乾」的時候，我就敷在眼睛上大約兩天，我的眼睛感覺好多了。但當我改用藥物時，需要幾週時間才能感覺好一點。

## Testimonial -

I have drank this honey for around 3 years. I find myself drinking this honey more when I am feeling unwell. I feel that after drinking the honey water, it can help me feel better.

Before I discover this raw honey, whenever I have sore throat and flu, it will take me a few days to reduce the swelling of sore throat and flu symptoms. After I start to consume the honey, usually in the next day I can feel it can help to subside the pain and swelling in the throat. The plus point is that it tastes nice too. So now whenever I have typical flu symptoms, I will look to consume my honey first.

Overall, I will continue to drink this raw honey and use it to better my health in the long run.

Kenny Lee 

我喝這種蜂蜜大約有3年了。當我感覺不舒服時，我發現自己喝得更多。我覺得喝了蜂蜜水後，可以讓我感覺好一點。

在我發現這種生蜂蜜之前，每當我喉嚨痛和流感時，我都會花幾天時間來減輕喉嚨痛和流感症狀的腫脹。當我開始食用蜂蜜後，通常第二天我就能感覺到它可以幫助減輕喉嚨的疼痛和腫脹。優點是味道也不錯。所以現在每當我出現典型的流感症狀時，我都會先喝蜂蜜。

總的來說，從長遠來看，我會繼續喝這種原蜜，並用它來改善我的健康。

Since 5 years ago, I have been consuming Natural Wild Honey everyday. I drink 2 tablespoons of honey mixed with lukewarm water in the morning once I wake up.

Ever since, I felt a boost in my immunity! I have not fallen sick at all for the past 5 years. The honey actually supports my overall wellness and immunity system.

Besides that, I feel energetic in the morning and throughout the day. Drinking honey gives me an energy boost that is much needed.

Sometimes during the day, I crave for a sweet drink. I would then make myself a cup of honey. Honey's natural sweetness makes a good alternative to sugar and helps with my weight management.

One other significant improvement I noticed is that my overall skin condition has improved! I believe it is due to the antioxidants in honey that reduces the signs of aging.

I would recommend everyone to consume Natural Wild Honey for a healthier life.

L.C. Neo

5年前，我每天都吃天然野蜂蜜。早上起床后，我会喝两汤匙蜂蜜和温水混合。从那时起，我就感觉到自己的免疫力增强了。过去5年我没有生过任何病。蜂蜜实际上支持我的整体健康和免疫系统。

除此之外，我早上和一整天都觉得精力充沛。喝蜂蜜可以补充我所急需的能量。有时白天我想喝甜饮料，我就会为自己泡一杯蜂蜜。蜂蜜的天然甜味是糖的良好替代品，有助于我的体重管理。

我注意到的另一个显著改善是我的整体皮肤状况有所改善。我相信这是由于蜂蜜中的抗氧化剂可以减少衰老的迹象。

我建议大家食用天然野生蜂蜜以获得更健康的生活

BEFORE I USED TO SUFFER WITH RUNNING NOSE  
WITH THE SUDDEN CHANGE OF WEATHER, AFTER  
TAKING NATURAL WILD HONEY IT HAS BEEN GONE.,  
NATURAL WILD HONEY HAS BOOST MY IMMUNITY SYSTEM  
TREMENDOUSLY. I TOOK IT TWICE A DAY MORNING/NIGHT.  
IT IS BEST TAKEN IN AN EMPTY STOMACH. THIS ALLOWS  
THE HONEY TO BE ABSORBED DIRECTLY INTO THE BLOODSTREAM,  
WHERE IT CAN BE USED BY THE BODY MORE EFFICIENTLY.

I ALSO HAPPEN TO SCALD MY ARM WHILE COOKING,  
I APPLIED THE HONEY INSTANTLY, HONEY HAS ENZYMES  
TO AID THE HEALING PROCESS.

IT IS ALSO A REFRESHING DRINKS, GREAT THIRST  
QUENCHER!

NATURAL WILD HONEY IS ALSO GOOD FOR SHAM SHUBORN  
COUGH, BETTER THAN AN EXPECTORANT. I RECENTLY HAD A  
BAD COUGH AND THICK PHLEGM, AFTER TAKING A SPOONFUL  
OF HONEY COMBING, STICKS AND IT SOOTHES MY THROAT, EVEN  
THE SHUBORN PHLEGM WAS EXPELLED OUT.

FOR BETTER HEALTH, CHOOSE A HONEY INSTEAD OF THE SUGAR  
LADEN DRINKS. HONEY VERY BENEFICIAL FOR YOUR HEALTH.

以前，我常因天氣突變而流鼻涕，服用天然野生蜂蜜後，流鼻涕就消失了。天然野生蜂蜜大大增強了我的免疫系統。我每天早上/晚上服用兩次。最好空腹服用。這使得蜂蜜可以直接被吸收到血液中，從而被身體更有效地利用。

它也是一種清涼飲料，解渴的絕佳飲品。

天然野蜂蜜對頑固咳嗽也有好處，比祛痰劑好。我最近咳嗽得很厲害，以為有痰，喝了一匙蜂蜜後，咳嗽就停止了，喉嚨也舒服了，連頑固的痰都被排出了。

為了更好的健康，選擇蜂蜜而不是含糖飲料。蜂蜜對你的健康非常有益。

I have been taking Natural Wild Honey on a daily basis for years now. I will take one tablespoon in the morning just before I take my breakfast, and one more tablespoon in the evening just before I take my dinner.

I find that Natural Wild Honey has really helped me to improve my immunity tremendously. I notice that I fall sick (eg. flu, fever, etc.) much less nowadays.

I have introduced Natural Wild Honey to my friends and family members as well. Some of my friends and family members have feedback to me that Natural Wild Honey has helped to soothe their sore throat and their coughs, and helped them to recover much faster from their sore throat and their coughs.

Other than these benefits, Natural Wild Honey is also good for detoxing where it helps to cleanse our body system from toxins which accumulates in our body.

I will definitely continue to recommend Natural Wild Honey to more of my friends and family members.

多年來我一直每天服用天然野蜂蜜。我會在早上吃早餐前服用一湯匙，晚上在吃晚餐前再服用一湯匙。

我發現天然野生蜂蜜確實幫助我大大提高了我的免疫力。我注意到現在我生病的情況（例如流感、發燒等）少了很多。

我也向我的朋友和家人介紹了天然野生蜂蜜。我的一些朋友和家人向我反饋說，天然野生蜂蜜有助於緩解喉嚨痛和咳嗽，並幫助他們更快地從喉嚨痛和咳嗽中恢復過來。

除了這些好處之外，天然野生蜂蜜還具有排毒功效，有助於清除體內積聚的毒素。我一定會繼續向更多的朋友和家人推薦天然野生蜂蜜。
