10: Natural Wild Honey,

Me and my family have been drinking your honey for the past 2-3 years. It have really benefit our health ever since. For both my parents, they always have problem with their bowel. Also their blood sugar is quite high. After drinking wild honey for about close to a year daily, their blood sugar level is close to normal level. They have also since stop taking the blood sugar medicine. Both of them also do not have anymore problem going to the toilet.

For me, I have always been very easy getting cough with thick phlegm and also havin a hard time coughing out the phlegm. After taking wild natural honey, I found that I seldom cough and even if I have cough, a few days of drinking the honey will cure my cough. Gone are the days of taking cough mixture and antibiotics!! My personal bowel have also become very smooth!!

I have also recommended Natural Wild Honey to a colleague of mine who have this chronic digestive issues for many years. He have tried many types of enzymes, probiotics and other digestive supplements but none helps. Ever since trying natural wild honey for just over 2 week He told me he can feel his stomach is not as bloated with air like he always have. He is able to pass out the wind in the stomach with ease and his appetite have improve alot.

His wife who always have acid reflux after seeing her hubby benefitted from drinking natural wild honey decide to give it a try too and true enough her acid reflux improve alot. They have since thank me for introducing this honey to them as they feel health is priceless and taking too much medicine is also not good for their health

我和我的家人在过去的两三年里一直在喝你们的蜂蜜。从那时起，它确实对健康有益。对于我的父母来说，他们的排便总是有问题。而且他们的血糖也相当高。每天饮用野生蜂蜜近一年后，他们的血糖水平已接近正常水平。此后他们也停止服用血糖药物。两人上厕所排便也很通畅。

对于我来说，我一直很容易咳嗽，痰很厚，而且痰也很难咳出来。服用野生天然蜂蜜后，我发现我的咳嗽减轻了，即使咳嗽，喝几天蜂蜜也有助于止咳。结束了服用止咳合剂和抗生素的日子！我个人的排便也变得很通畅！！

我还向我的一位同事推荐了天然野生蜂蜜，他多年来一直患有这种慢性消化问题。他尝试过多种酶、益生菌和其他消化补充剂，但都没有帮助。自从尝试天然野生蜂蜜两周多以来，他告诉我他能感觉到他的胃不像以前那样因空气而肿胀。他胃里的风能轻松排出，食欲也改善了很多。

他的妻子经常出现胃酸倒流，在看到丈夫喝天然野生蜂蜜后，决定也尝试一下，果然，她的胃酸倒流得到了很大改善。他们感谢我向们介绍这种蜂蜜，因为他们觉得健康是无价的，吃太多药对他们的

心脏也不好

我想再次向那些和我们有同样问题的人推荐天然野生蜂蜜，我百分百肯定你不会后悔

I would highly recommend Natural Wild Honey to anyone for daily consumption. It has helped me in prolonging good state of health throughout the months and years. I am a frequent sore throat patient and ever since I started consuming Natural Wild Honey, I noticed that my sore throat and throat inflammation frequency had reduced dramatically over a yearly period.

My daily consumption of Natural Wild Honey in the morning prior to breakfast is one soup spoon of dosage. It improved bowel movements on a timely and consistent pattern. The stools are soft and it is almost rare that I get constipation.

I also found that my energy level improved for the first three quarters of the day. So in a way, the consumption of Natural Wild Honey had improved my metabolism.

A typical night of sleep for me is usually between 10pm. to 4:30am almost everyday for the past 5 years. My quality of sleep had improved in those 5 years of consuming Natural Wild Honey. The compelling after affects of Natural Wild Honey has encouraged me to continue its consumption to maintain a healthy lifestyle.

我强烈推荐天然野生蜂蜜给大家日常食用。它有助我长期保持良好的健康状态。我是一名经常喉咙痛的患者，自从我开始食用天然野生蜂蜜以来，我注意到我的喉咙痛和喉咙炎症的频率逐年显着减少。

我每天早上早餐前食用的天然野生蜂蜜是一汤匙的剂量。它及时、一致地改善了排便。大便很软，便秘的情况几乎很少见。我还发现，前三个季度我的精力水平有所提高。所以在某种程度上，食用天然野生蜂蜜改善了我的新陈代谢。

在过去的 5 年里，我几乎每天晚上的睡眠时间通常是晚上 10 点到凌晨 4.30 点。在食用天然野生蜂蜜的五年里，我的睡眠质量得到了改善。天然野生蜂蜜令人信服的后效鼓励我继续食用它以保持健康的生活方式。

I've been experiencing fever, body-ache & chills for the past few days. My digestion has been at an all time low, and I struggle to stomach anything without feeling nausea. After trying this product, I saw significant results & improvement the next day. My soreness has gone away. I'm getting my appetite back and I am no longer experiencing chills throughout the night. Thanks to this Product I can return to work the following day with confidence that I can overcome any physical obstacles. I'm actually skeptical when it comes to gimmicky products like this but the ingredients transparency gave me a peace of mind ~~as~~ as I'm conscious of what I put into my body. With that, I encourage those with weak immune system to try this for themselves if they are looking for a fuss-free & effective way to cure brain-fog, fatigue, bad gut-health & many more!

这几天我一直发烧、身体疼痛和发冷。我的消化能力一直很低，我很难吃任何东西而不感到恶心。尝试该产品后，第二天我就看到了显着的结果和改善。我的酸痛已经消失了。我的食欲恢复了，整夜不再感到寒冷。多亏了这个产品，我可以在第二天充满信心地返回工作岗位

可以克服任何身体障碍。对于这样的噱头产品，我实际上是持怀疑态度的，但成分的透明度让我安心，因为我知道自己摄入了哪些成分。因此，如果那些免疫系统较弱的人正在寻找一种轻松有效的方法来治疗脑雾、疲劳、肠道健康不良等问题，我鼓励他们自己尝试一下！

My Family have been consuming the honey since the covid period in 2020. We first came across this honey at Harbourfront outlet and have continued to purchase since then. It has benefited the whole family in terms of health and kids eczema problem. It has helped to regulate the menstruation and also detox the body. The taste of the honey is sweet and natural with the right texture. A honey that helps everyone is rare and hard to find. It is different and pure. Some other honey were mixed with other additional sugar. It really helps to cure and soothe the throat when we have cough. It is a natural remedy that helps to replace the medicine. We really love the honey and would recommend to everyone to consume it. Thank you natural wild honey!

自 2020 年新冠疫情期间以来，我的家人一直在食用这种蜂蜜。我们第一次在港湾店发现这种蜂蜜，从那时起就一直购买。它在健康和儿童湿疹问题方面使整个家庭受益。它有助于调节月经，也有助于身体排毒。蜂蜜的味道甜美自然，质地恰到好处。对每个人都有帮助的蜂蜜是稀有且难以找到的。它是不同的是纯天然的。其他一些蜂蜜与其他额外的糖混合。当我们咳嗽时，它确实有助于治疗和舒缓喉咙。它是一种有助于替代药物的自然疗法。我们真的很喜欢蜂蜜，并推荐大家食用。谢谢天然野生蜂蜜！

Natural raw honey can help me with insomnia

我已经食用天然野生蜂蜜很长时间了。胃痛是我主要的健康问题。食用天然野生蜂蜜后，最近胃痛减轻了。一般来说，蜂蜜的钾、锰、稀土等矿物质含量较高。通过食用蜂蜜，它可以替代其他补充剂。有时，每当我过度劳累时，我就会面临失眠等问题。通常，每当我因睡眠不足而需要去上班时，我都会感到恐慌。

天然野生蜂蜜可以帮助我解决失眠问题，自从食用野生蜂蜜后，我每天都感觉神清气爽、精力充沛。因此，我推荐天然野生蜂蜜，因为它有利于滋养和保护健康皮肤，尤其是像我这样的老年人。

Testimonial on Natural Wild Honey

I have been taking Natural Wild Honey for about 4 years. The Natural Wild Honey has been helpful in treating my acid reflux and giving strength to my legs, to have more energy in my voice and reduce itching in my hands and legs. It has played a big part in detoxifying my body.

I have been visiting many doctors in the past for my symptoms such as headache, sore throat and leg pain, and many other bodily ailments throughout many years, but to no avail. I came across Natural Wild Honey while shopping 4 years ago through the salesperson at the shopping mall at Kovan Heartland Mall. After taking the honey, I realised that it helped greatly in my bodily ailments and allowed me to sleep better at night. It really worked better than any other medicine I have taken in the past.

Now, I am able to walk better and have better sleeping schedules at night. It has also helped me to be more energised throughout the day and make me feel better as a person. Do give it a try, it will really be worth it!

我服用天然野生蜂蜜已有大约 4 年了。天然野生蜂蜜有助于缓解我的胃酸逆流，增强双腿力量，让我的声音更有活力，减少手脚瘙痒。它对我身体的排毒起到了很大的作用。

多年来，我曾因头痛、喉咙痛、腿痛以及许多其他身体疾病等症状去看过很多医生，但都没有效果。四年前，我在 Kovan Heartland Mall 购物中心购物时，通过销售人员偶然发现了天然野生蜂蜜。服用蜂蜜后，我发现它对我的身体营养有很大帮助，让我晚上睡得更好。它确实比我过去服用的任何其他药物都有效。现在，我能够更好地行走并在晚上有更好的睡眠时间。它还帮助我一整天都充满活力，让我感觉更好。一定要尝试一下，这真的很值得！

20 November 2023

My very first bottle of DG honey was 6 years ago bought by my brother at Heartland Mall Kovan. He noticed that I suffered hard cough for more than three months (it always happened during year end) despite taking Western and Chinese medication still no improvement. I was quite reluctant consuming DG honey because both Western and Chinese medicine can't even cure me talking about a bottle of honey!

Nevertheless, make it a try hoping for miracle as my life was so disrupted by this long and hard cough. For every morning empty stomach a full spoon of DG honey and before bed another dose. Beginning week was bad wanting to give up because mucus alot and kept expelling. For consecutively more than three weeks, my lung congestion very much relieved. Continuing for four bottles and I have recovered in (honey) good hand.

Each year end coming, I always have phobia but not now. My bodyguard Natural Wild Honey protect me! In all, Natural Wild Honey indeed a Miracle to me and I have recommended to my friends which she is currently suffering from acute rhinorrhoea.

Thank you and wishing Natural Wild Honey Team
All the Best Health Always!

我的第一瓶 DG 蜂蜜是 6 年前我哥哥在 Heartland Mall Kovan 买的。他发现我咳嗽了三个多月（年底总是这样），吃西药、中药都治不了，说一瓶蜂蜜能治好，我不相信！

尽管如此，还是尝试一下吧，希望能有奇迹出现，因为这久咳不愈打乱了我的生活。每天早上空腹服用一整勺 DG 蜂蜜，然后在睡觉前再喝一整勺。刚开始的一周，我很想放弃，因为痰很多并且不断排出。连续三个多星期，我肺的痰明显减轻了。我继续喝四瓶，我已经康复了。（蜂蜜）让我恢复良好状态。

每年年底，我总有恐惧症，但现在没有了。我的保健天使纯天然野生蜂蜜保护我！总而言之，天然野生蜂蜜对我来说确实是一个奇迹，我已经推荐给我的朋友，她目前患有急性鼻漏。

感谢您并祝愿天然野生蜂蜜团队永远健康！

I've ^{been} have ^{at} a regular customer, Natural Wild Honey for the last 3 years. A choice well made. It has initially helped me in good sleep and soothe my throat since my job in teaching young children. A clear voice and strong vocal chord and good lung is of paramount importance.

It makes me want to share with my good friends. Recently, presented 2 bottles to 2 friends who had mouth ulcers and constipation. Lo and behold! they reverted with excellent praise reports! It's an expensive gift but it works in term of showing gratitude to good friends.

It tastes very good when taken neat. Making it into a cold drink on a hot day is most refreshing and rewarding.

Since taking Natural Wild Honey, other honeys no longer interest me because of its benefits I receive from consumption of this excellent quality honey. Truly a perfect recommendation to anyone of any age to give a try. You'll never regret trying it!

Chanced upon Natural wild Honey and tried the ready made honey water. The honey contains no artificial colours, preservatives or flavouring. After some research and reading the information provided, I decided to give it a try. This was 2 years ago.

Since then, I have been taking the honey daily and noticed improvement in various aspects. My body immune system has improved, it also helps to ease bowel issues like constipation. I used to have to wake up at least once in the night to go to the toilet, after taking honey, I feel that my urinary tract and frequency to the toilet at night has improved. I no longer need to do that.

On top of all the above, I also sleep better which helps a lot as insomnia can make me feel tired the day after.

Overall, my health and well being has improved.

I would recommend this wild honey.

偶然发现了天然野生蜂蜜并尝试了现成的蜂蜜水。蜂蜜不含人工色素、防腐剂或调味剂。经过一番研究和阅读所提供的信息后，我决定尝试一下。这是2年前的事了。

从那时起，我每天都服用蜂蜜，并注意到各方面都有所改善。我的身体免疫系统得到了改善，也有助于缓解便秘等肠道问题。我以前晚上至少要起床一次去厕所，服用蜂蜜后，我感觉我的尿道和夜间上厕所的次数都有所改善。我不再需要这样做了。除此之外，我还睡得更好，这很有帮助，因为失眠会让我第二天感到疲倦。

总体而言，我的健康和生活品质有所改善。

我会推荐这种野生蜂蜜。

27 November 2023

I was introduced to Natural Wild Honey by my mum whom her friend has been taking it and feel great from it. Hence, I decided to give a try to experience the goodness.

After few days of taking, I realised I tend to doze off whenever I am watching my drama every night. Though I do not have any sleeping problems, somehow I feel my body and mind will automatically switch off. I have very good sleep every night.

Recently, I had my 2nd covid. I felt a significant difference compared to the 1st time. I took longer to recover for my 1st covid and the phlegm took ^{quite} a while to recover. As for my 2nd covid, my sore throat and phlegm lasted for less than a week and my throat do not feel dry even after recovered. However, I saw my colleague has been coughing till today which she got covid a year ago. Nonetheless, I will persuade her to try this honey.

In conclusion, I am glad that I get to know this Natural Wild Raw Honey and I will continue to take it.

我妈妈向我介绍了天然野生蜂蜜，她的朋友一直在服用天然野生蜂蜜，并且感觉很好。因此，我决定尝试一下，体验一下其中的好处。

服用几天后，我发现我每晚看剧时都会打瞌睡。虽然我没有任何睡眠问题，但不知怎的，我感觉我的身体和脑袋会自动屏蔽，深度休息。我每晚都睡得很好。

最近，我第二次感染新冠病毒。与第一次相比，我感觉有很大的不同。我第一次感染新冠要很长时间才康复，而且痰也很长时间才消减。至于我第二次感染新冠，我的喉咙痛和痰持续了不到一周，即使痊愈后我的喉咙也不觉得干燥。然而，我看到我的同事一直咳嗽到今天，她一年前感染了新冠病毒。尽管如此，我还是会说服她尝试这种蜂蜜。

总之，我很高兴能够认识这种天然野生蜂蜜，并且我会继续服用它。

I have always been a fan of Natural Wild Honey but my recent discovery of this honey has taken my appreciation to a whole new level. Not only does it tantalize favour but it also brings a myriad of benefits that has positively impacted my well-being.

One of the key reasons I've made this wild honey a staple in my pantry is its potential health benefits. Packed with antioxidants and enzymes, it's more than just a sweetener. I have noticed a boost in my overall energy levels and a strengthened immune system since incorporating it into my daily routine. Knowing that I'm indulging in a natural unprocessed product that supports my well-being is a reassuring feeling.

In a world where convenience often trumps quality, discovering wild honey has been a refreshing reminder of the treasures that nature provides. It's not just sweetener, it's a journey into the heart of untouched landscapes, a celebration of biodiversity and a conscious choice of a healthier, more sustainable lifestyle.

我一直是天然野生蜂蜜的粉丝，最近我发现了这种蜂蜜，这让我的欣赏提升到了一个全新的水平。它不仅味道诱人，而且还带来了无数的好处，对我的健康产生了积极的影响。

我将这种野生蜂蜜作为我食品储藏室的主食的主要原因之一是它潜在的健康益处。它富含抗氧化剂和酶，它不仅仅是一种甜味剂。自从将其纳入我的日常生活以来，我注意到我的整体能量水平得到了提高，免疫系统也得到了增强。知道我正在凭着一种天然的未经加工的产品来支持我的健康，这是一种令人安心的感觉。

在一个便利往往胜过质量的世界里，发现野生蜂蜜令人耳目一新，提醒人们大自然所提供的宝藏。它不仅仅是甜味剂，更是一次深入原始景观中心的旅程，是对生物多样性的庆祝，也是对更健康、可持续生活方式的有意识的选择。

As someone who enjoys an active lifestyle, I find wild honey to be the perfect energy booster. Whether I'm hitting the gym or tackling a busy workday, a spoonful of honey in the morning drink keeps me going. What's even better is that I no longer experience the energy crashes that come with processed sugars.

I have started taking Natural Wild Honey since Dec-2020. I wanted to try out to see the difference between the natural and the non-natural types of honey.

I bought it and my whole family consumes it. Even my son likes the natural taste of the honey. We have been taking it and never stop. We feel safe taking the Natural Wild Honey.

When we have cough or sore throat, we will take 1 tablespoon full of the Natural Wild Honey twice a day. It soothes our throat and help to speed up the recovery process.

When we have ulcers in our mouths, we use the Natural Wild Honey to apply onto the ulcers, to help heal faster

We believe through long-term consumption, it will definitely benefit our health. We have already seen improvement in our health, as we seldom fall sick, and it also save us money in seeing doctor.

We recommended to our family members and friends, and whoever that needs to build up their immune system.

My family and I have been drinking this honey on a frequent basis as well as on days where our throats feels dry and itchy. It helps to soothe our throats and cool our body down. We like the taste of Natural Wild Honey grade 4, rich, thick and not as sweet as other shelves-bought honey (which usually contains man-made sugar). There were times where my family and I were down with flu, cough (respiratory infection), we mixed this Natural Wild honey grade 4 with some turmeric powder, hot water & chopped mint leaves to relieve the symptoms. It complements well and we felt better. Overall, the honey tastes great on its own, with water and with as a concoction as well. Additionally, we used honey cream on a daily basis as a moisturiser on certain parts of our skin which feels dry, itchy, red, swollen. My husband and I uses it daily for our dry flakey skin. My daughter uses it on her face when it feels dry. It moisturises & soothes the skin although it feels slightly thick and sticky to the touch. Overall, we like using the honey cream and natural wild honey grade 4.

我和我的家人经常喝这种蜂蜜，在喉咙感到干燥和发痒的日子里也是如此。它有助于润喉，消暑。我们喜欢4号天然野生蜂蜜的味道，浓郁，浓稠，不像其他货架上买的蜂蜜那么甜（通常含有人造糖）。有时我和我的家人患上流感、咳嗽（呼吸道感染）时，我们将这种天然的4号蜂蜜与一些姜黄粉、热水和切碎的薄荷叶混合以缓解症状。它很好地润喉消热，我们感觉很好。总的来说，蜂蜜本身的味道很好，加水或与混合物一起味道也很好。此外，我们每天都会使用蜂蜡润胡霜作为皮肤某些部位的保湿剂，这些部位会感到干燥、发痒、红肿。我和我丈夫每天都用它来润肤，特别是干燥的片状皮肤。当我女儿感觉皮肤干燥时，我女儿就用它在脸上。它可以滋润和舒缓皮肤，尽管摸起来有点厚重和粘稠。总的来说，我们喜欢使用蜂蜜霜和天然野生4号蜂蜜。

This honey is like a sweet miracle! It tastes amazing and has made my nights so much better! No more annoying snoring, and give my peaceful sleep throughout the night. Additionally, when I get a pesky cough, this honey is like a cozy hug for my throat. It's like nature's own remedy, and I love that it's not some complicated medicine.

I have made it part of my daily routine, just a spoonful, and it feels like a little sweet secret to better sleep and feeling good. My mum has some eyes problem, and she dripped some honey into her eyes, as guided by the sales person, and she feedbacked that she can see better after that.

My kids are on board with this honey magic too! They love the taste, and when they have a cough, I feel good giving to them, and I am happy knowing it's a natural way to help them feel better. So, not only it is my go-to for better sleep and kicking snoring to the curb, but it become a family favourite remedy for these occasional coughs. It's a win-win for all of us, and I can't recommend it enough for anyone looking for a tasty and wholesome solution.

这种蜂蜜就像一个甜蜜的奇迹！它的味道棒极了，让我的夜晚变得更加美好！不再有烦人的打鼾声，让我整夜安眠。此外，当我咳嗽得很厉害时，这种蜂蜜就像一个润喉剂。这就像大自然自己的补救措施，我喜欢它不是一些复杂的药物。

我已经把它变成了我日常生活的一部分，只需一勺，感觉就像是一个改善睡眠和感觉良好的甜蜜小秘密。我妈妈眼睛有问题，在销售人员的指导下滴了一些蜂蜜到眼睛里，她反馈说之后看得更清楚了。

我的孩子们也喜欢这种蜂蜜！他们喜欢这种味道，当他们咳嗽时，我感觉很好，我很高兴知道这是帮助他们感觉更好的自然方式。因此，它不仅是改善睡眠和消除打鼾的首选，而且还成为家人最喜欢的治疗偶尔咳嗽的药物。这对我们所有人来说都是双赢的，对于任何寻求美味和健康解决方案的人来说，我极力推荐它。

过去 5 个月我一直服用天然野生蜂蜜。 我会在早餐和晚餐前空腹服用一汤匙野蜂蜜。 这种天然蜂蜜不仅可以食用，也可以外用。 一位相信纯天然野生蜂蜜的朋友向我介绍了它。 当我来访Kovan 的销售柜台时，Sue 阿姨很乐意与我分享信息，帮助我了解它的好处。 目前，我每天早上第一件事就是喝天然野生蜂蜜。 与之前早上喝 Milo 相比，我现在更加自信，因为我一整天都感觉精力充沛。

Testimonial on Natural wild honey

I chanced upon this Natural wild honey when I was at Kovan Heartland Mall sometime on June, 2022 and was served by Sue who patiently explained to me the key information of your products usage and benefits.

I am close to seventy and have been consuming high-grade honey and also bee by-products like Propolis and Royal Jelly.

Before that, I had tasted various wild honey and also got tired of non-genuine products claiming to be the best.

All the while, I had a very bad cough condition that affected my sleep badly every night. So I decided to try this product.

Since then, I been consuming twice a day in the morning and at night before bed on an empty stomach. After consumed the wild honey, I still continued to cough and even got worse. At one stage, it started to cough out alot of phlegm. I nearly give up on this product but with Sue excellent explanation, I finally continue consuming the wild honey. Recently, my wife pointed out that she hardly hear me cough nowadays.

Infact, I also never realised it.

Anyway, thank you so much for bringing such a awesome wild honey to Singapore.

My family and I will continue to consume for our health benefits. I will strongly recommend this product to everyone.

纯天然野生蜂蜜的见证

2022 年 6 月的某个时候，我在 Kovan heartland 购物中心偶然发现了这种天然野生蜂蜜，Sue 耐心地向我解释了你们产品的用途和好处的关键信息。我已经快七十岁了，一直食用高级蜂蜜以及蜂胶和蜂王浆等蜜蜂副产品。在此之前，我尝过各种野生蜂蜜，也厌倦了自称最好的非正品。一直以来，我的咳嗽情况都很严重，影响了我的睡眠。所以我决定尝试一下这个产品。我每天服用两次。吃了野蜂蜜后，我还是咳嗽不止，甚至咳嗽得厉害。有一个阶段，它开始咳出大量痰。我几乎放弃了这个产品，但在苏的精彩解释下，我继续食用野生蜂蜜。最近，我的妻子指出她几乎听不到我的咳嗽音。其实我并没有意识到。谢谢您将这么好的产品带来新加坡。我和家人会继续饮用这天然野生蜂蜜。

关于：天然野生蜂蜜的见证

我已经食用纯天然野生蜂蜜大约三年多了。 每天两次，早上一次，晚上睡前一次。

服用野生蜂蜜后，我可以看到改善。

之前我一直患有便秘。 自从我开始服用野蜂蜜后，我就能定期排便了。 它改善了我的新陈代谢和总体健康状况。

之前我经常干咳很长时间，影响了睡眠。 最初，服用蜂蜜后，我的咳嗽变得更严重。 我甚至去看了很多医生，但都没有什么帮助。 但我还是继续食用野蜂蜜，渐渐地，我的病情好转了。

最重要的是，我之前的睡眠问题。 每天摄入野生蜂蜜后，我可以享受不间断的深度睡眠。 它还可以让我在晚上过度活跃的头脑平静下来。

天然野生蜂蜜简直就是一种神奇的产品。 我会继续服用纯天然蜂蜜作为长期的保健品。 再次感谢您将这款出色的产品带到我们的国家。

For the past 4 months, I've been building in natural wild honey into both my diet and skincare routine, and the impact has been remarkable. Not only have I noticed a boost in my general health, I've also seen improvements in the overall texture of my skin.

One of the most significant benefits I've noticed is the positive effect on my immune system. Regular consumption of this honey has helped me fend off seasonal allergies and colds, providing a natural shield against illnesses.

Using natural wild honey as a core part of my skincare routine has been a complete revelation. The hydration it provides has my skin feeling softer and more supple than before. The gentle exfoliation properties have given me a radiant glow, and the antioxidants have visibly improved the overall texture of my skin.

Beyond its health and skincare benefits, the purity and richness of this honey are evident in every spoonful. The unique taste and texture stand out, making it a delightful drink or even enjoyable when consumed on its own.

Overall, my experience with natural wild honey has been nothing short of exceptional. Its quality, taste, and the holistic well-being it promotes have made it an indispensable part of my lifestyle. I wholeheartedly recommend it to anyone seeking natural and beneficial honey that goes beyond just a delightful drink.

在过去的 4 个月里，我一直在饮食和护肤程序中融入纯天然野生蜂蜜，效果显著。不仅我的整体健康状况得到显著改善，我的皮肤整体质感也得到了改善。

对我的免疫系统最显着的好处之一。这种蜂蜜帮助我抵御季节性过敏和感冒，为预防疾病提供了天然屏障。

使用天然蜂蜜作为我的护肤程序的核心部分是一个完整的启示。它提供的脱水让我的皮肤感觉比以前更柔软。温和的去角质特性让我焕发光彩，抗氧化剂明显改善了我皮肤的整体质感。

除了其健康和护肤功效之外，这种蜂蜜的纯度和丰富性在每一勺中都显而易见。独特的味道和质地脱颖而出，使其成为一种令人愉悦的饮料，甚至单独饮用时也令人愉悦。

总的来说，我对天然野生蜂蜜的体验非常出色。它的品质、品味提升已使其成为我生活方式的一部分。我全心全意地向任何寻求天然有益蜂蜜的人推荐它，它确实不仅仅是一种令人愉悦的饮料。

天然野生蜂蜜的见证 (2023 年 11 月)

2018年我的尿蛋白很高，突然腿肿了，根本蹲不下去。2018年1月我去看了肾病专科。医生给我做了很多血液检查和尿液检查。医生对我的肾脏进行了活检，结果很好。我病得很厉害，很虚弱，没有胃口。医生注射了3天类固醇，然后给我服用了6个月的类固醇药物。

我于 2019 年 1 月康复并停用了类固醇药物。从那以后我决定服用补充剂几年。我在2022年停止服用补充剂，因为没有任何改善。

我的朋友在 2022 年向我推荐纯天然野生蜂蜜。在服用天然蜂蜜一年后，我的失眠、胃痛、关节痛都消失了。我愿意把我的经验分享给大家。谢谢Chloe一直关注我，并且转发了Richard的视频，让我更多地了解天然蜂蜜。感谢天然野生蜂蜜团队。

I was given a bottle of Natural Wild Honey by my sister when she knew that my sleeping quality was poor. I felt sceptical as I had tried many other brand of honey but no improvement to my sleeping quality. In order not to disappoint her, I had no choice but to start taking daily to stop her from nagging at me.

I took one tablespoon twice a day ^{after} meals for about a week, and felt that I started to sleep better. My wife even told me that these days whenever she enter the room I did not even realised. (I used to be a light sleeper).

I continued taking Natural Wild Honey daily thereafter and to my surprise my glucose level start to show slight improvement after three months of consumptions. It has certainly encouraged me to go on taking to see the better of me.

I would like to thank Natural Wild Honey for given a new hope to rejuvenate my body. I will continue and look forward to sharing more surprises.

Thank you.

姐姐知道我睡眠质量不好后，送给我一瓶天然野生蜂蜜。我对此表示怀疑，因为我尝试过许多其他品牌的蜂蜜，但我的睡眠质量没有改善。为了不让她失望，我只好开始每天服用野生蜂蜜，以免她对我唠叨。

我每天饭后服用两次一汤匙，持续了大约一周，感觉我开始睡得更好了。我的妻子甚至告诉我，这些天每当她进入房间时我都没有意识到。（我曾经是一个浅睡者）。

此后我继续每天服用天然野生蜂蜜，令我惊讶的是，服用三个月后我的血糖水平开始出现轻微改善。它无疑鼓励我继续看到更好的自己。

我要感谢天然野生蜂蜜给了我恢复身体活力的新希望。我会继续努力，期待分享更多惊喜。

谢谢。

关于纯天然野生蜂蜜，苏女士向我推荐了这款天然野生蜂蜜。我已经服用这种蜂蜜几年了。对我来说感觉很酷。并给了我的家人几瓶。也推荐给我的客户。最好的一种是黑蜂蜜。以前从未见过，它仍然有点酸甜。还有一些，对喉咙有好处。自从喝了这个黑蜂蜜，看医生的次数就少了。我的小孩子吃了喝的是黄色蜂蜜，太好了，喝了野生蜂蜜孩子吃麦当劳也不会生病。而且，晚上服用黑蜂蜜后，睡眠质量会很好。幸运的是，我在新冠疫情期间找到了这种蜂蜜。到目前为止只感染过一次Covid，服用黑蜂蜜恢复得更快。

I have been taking the honey since more than a year ago. It has been the only solution for my eczema. I have tried various methods like steroid creams, salt baths, antihistamines and oral medication but none have worked for me. Recently, my daughter has also started taking the honey as she developed some dry itchy skin. As she is only 3 years old, I've been giving her small doses but it seems to have also worked for her.

我从一年多前就开始服用蜂蜜了。这是解决我的湿疹的唯一方法。我尝试过各种方法，如类固醇霜、盐浴、抗组胺药和口服药物，但没有一个对我有效。最近，我女儿也开始服用蜂蜜，因为她的皮肤有些干痒。由于她只有3岁，我一直给她服用少许野生蜂蜜，但似乎对她也有效。

去年我们路过巴耶利峇Sing Post时，吃了‘天然野生蜂蜜’，真的很有效，可以防止病情恶化。

时光飞逝！ 我已经服用天然野生蜂蜜八年了，如果有一天我不服用的话，我会感觉不舒服。我是在实里达路演认识了苏蜜阿姨，从那天起开始认识到天然野生蜂蜜产品。那时正逢我咳嗽的那两个月，是她真诚的耐心，向我解释蜂蜜的功效。

我和我家人喝完了天然野生蜂蜜后就去位于Kovan heartland 购物中心3楼，向Su 阿姨购买。疫情过后，我就开始网上购买，让你们送货上门。每天早上吃早餐之前,我都会喂我的两个孩子空腹服用野生蜂蜜，同时也让我丈夫和我自己食用蜂蜜,这有助于增强我们的免疫力，就不会那轻易生病了。它还可以帮助缓解我的便秘和我丈夫的心脏问题。我也推荐了我的同事、朋友以及我的父母和兄弟姐妹都尝试这野生蜂蜜，喝了后，他们感觉很舒服。再次感谢天然野生蜂蜜让我们保持健康快乐。

My sister Helen Loh gave me 1 bottle of her Natural Wild ^{LG} honey LG and DG each to try after she observed I get diarrhea, skin eczema and cough easily almost every month. Upon her advice, I have been taking Natural Wild Honey for more than 3 weeks without fail every morning and before going to bed in the night. I always mix one tablespoon of DG and LG honey with 1 tablespoon of warm water and take it with empty stomach. To my surprise, I notice my health has tremendously improved after 3 weeks. I believe the powerful ingredients in Natural Wild Honey aids in digestion, soothes bowel movements, relieve cough, and helps in wound healing. This is my first time taking Natural wild Honey in my life and regretted not knowing the benefits of Natural Wild Honey earlier.

Recently I went for my biannual health screening paid by my company and is glad that I do not have any major issues on my medical report. Suspect daily dose of the DG and LG Natural Wild Honey raises level of health-promoting antioxidants in the body. According to my Family Doctor, antioxidants help block free radicals in the body that cause disease. It also boosts the immune system, acting as a preventative against any number of diseases. Honey

Contains polyphenols, which are powerful antioxidants that have been shown to reduce the risk of heart disease and cancer.

I would highly recommend my friends and colleagues to give Natural Wild Honey D6 and LG a try which have great benefit to our health a shot. Thank you

我姐姐Helen Loh给了我一瓶她的天然野生蜂蜜LG和DG，让我尝尝，看是否有助改善我的健康，因为她发现我几乎每月都容易腹泻、皮肤湿疹和咳嗽。至今，我已经服用天然野生蜂蜜三个多星了。在她的建议下，我每天会服用两次，早上和晚上睡觉前。我会混合一汤匙 DG 和 LG蜂蜜再加上1汤匙温水，空腹服用。令我惊讶的是，我注意到三周后我的健康状况有了很大改善。我纯天然野生蜂蜜成分有助于促进消化、润肠通便、止咳、并有助于伤口愈合。这是我人生中第一次服用天然野生蜂蜜，后悔没有早点知道天然野生蜂蜜的好处。最近，我参加了由公司支付的一年两次的健康检查，很高兴我这样做了我的医疗报告上没有任何重大问题。天然蜂蜜提高体内促进健康的抗氧化剂水平。根据我的家庭医生，抗氧化剂有助于阻止体内导致疾病的自由基。它也是启动免疫系统，预防多种疾病。蜂蜜含有多酚，这是一种强大的抗氧化剂，已被证明可以减少心脏病和癌症的风险。我强烈推荐我的朋友和同事给予天然蜂蜜 DG 和LG的尝试，因为这蜂蜜对我们的健康有很大好处。谢谢。

当我姐姐第一次向我介绍纯天然野生蜂蜜时，她告诉我喝蜂蜜和服用保健品一样好，她给我一瓶天然野生蜂蜜尝试。

多年来我一直饱受便秘、胃胀症状的困扰。和当我消化牛奶和奶制品时，我也会出现乳糖不耐受症状。吃了含有牛奶成分的食物，可能会导致我一整天的不适。

因此，我用谷歌搜索了天然蜂蜜的官方网站并观看了一些客户视频，讲述了他们服用这种蜂蜜后看到他们的健康得到积极改善的见证。

有了这个保证，我信心十足地每天早上醒来后第一件事就是喝这种蜂蜜。令人惊讶的是，服用蜂蜜两周后，我感觉我的身体与上述不同了，尤其是胃胀问题减轻和改善了许多，我很高兴看到显著的效果。

食用蜂蜜快一年了，我的身体已经可以应付牛奶了。现在会引发我肠胃道不适症状的食物不多。

我很高兴我姐姐向我介绍了这种蜂蜜，让我体验到了生活积极的一面，改善了我的健康。

感谢纯天然野生蜂蜜改善了我们的健康！

My name is Agnes, I am 60⁺ year old. As I am still working to support my family, I have to keep myself fit and healthy.

I have been consuming "Natural Wild Honey" since 2019 or much earlier. Before that I used to buy and consumed branded manuka honey. Ever since Covid-19 pandemic started, I totally switched to consuming "Natural Wild Honey" and stop spending money costly on other brands of honey.

I found that "Natural Wild Honey" is indeed good and effective in keeping healthy and until today I am 'Covid free'. Besides maintaining a healthy lifestyle and have enough of rest everyday, whenever I feel little bit of unwell in throat or tiredness, I will take enothe extra tablespoon of "Natural Wild Honey" with drinking enough water and rest, I could just recover and without having to fall sick.

A week ago, I just get to check my leaves records and amazingly, I did not take any of medical leave, no "MC" for the whole year as it's coming to end of 2023 soon.

"Natural Wild Honey" is really a good source of energy and has healing properties. It is God's gifted food for us, for His children. It tastes great too! Whenever I see my children who did not have enough rest as sometime they stayed late outside and I would make them a cup of "Natural Wild Honey" before they go to work and it benefits them too!

"Natural Wild Honey" is good and I treasure it for long-term consumption.

Thank you.

我叫艾格尼丝，今年 60 多岁。由于我仍在工作养家糊口，因此我必须保持自己的健康。

自 2019 年或更早以来，我一直在食用“天然野生蜂蜜”。在此之前用于购买和消费品牌麦卢卡蜂蜜。自从 COVID-19 大流行开始后，我完全转向食用“天然野生蜂蜜”，不再花大钱购买其他品牌的蜂蜜。

我发现“天然野生蜂蜜”可有效的保持健康的，直到今天我都没有感染新冠病毒”。除了每天保持健康的生活习惯和充足的休息外，每当我感觉喉咙有点不舒服或疲倦时，我就会额外服用一汤匙

“天然野蜜”只要喝足够的水和休息，就能康复，不会生病。

一周前，我刚刚检查我的休假记录，令人惊讶的是，我全年没有休任何病假，也没有“MC”，因为 2023 年即将结束。

“天然野生蜂蜜”确实是一种很好的能量来源，并且具有治疗功效。这是上帝为我们、为他的孩子们所赐予的食物。味道也很棒！每当我看到我的孩子们休息不够，有时在外面待到很晚，上班前我会给他们泡一杯“天然野蜂蜜”，对他们也有好处！

I WAS FIRST INTRODUCED TO NATURAL WILD HONEY AT YOUR COMPANY'S ROAD SHOW AT HARBOUR FRONT CENTRE ABOUT SEVEN YEARS AGO.

AFTER LISTENING TO THE VARIOUS BENEFITS OF THE HONEY I BOUGHT A FEW BOTTLES TO TRY.

NOT LONG AFTER I BOUGHT THE HONEY I HAD QUITE BAD SORE THROAT THEN. I TOOK SOME UNDILUTED HONEY AND MY THROAT WAS NO LONGER SORE THE FOLLOWING DAY.

SINCE THEN I HAVE BEEN TAKING THE WILD HONEY IN THE MORNING ON A DAILY BASIS AND WHENEVER MY THROAT FEELS A LITTLE DRY.

I FIND THAT THE HONEY NOT ONLY HELPS TO SOOTHE MY THROAT (AFTER EATING HEATY OR FRIED FOODS.) IT ALSO HELPS TO IMPROVE THE BODY'S IMMUNE SYSTEM.

NOWADAYS I HARDLY GET SORE THROAT, FLU, COUGH ETC.

TAKING THE HONEY ON A DAILY BASIS ALSO HELPS TO EASE BOWELS ISSUES LIKE CONSTIPATIONS.

I REALLY LIKE THE DARK GOLD/BLACK HONEY AS IT IS NOT TOO SWEET AND HIGH IN ANTI-OXIDANTS. THIS WILD HONEY'S SWEETNESS IS NATURAL AND THE TASTE REFRESHING.

大约七年前，在贵公司在海滨中心举行的路演中，我第一次了解到天然野生蜂蜜。

听完蜂蜜的各种好处后，我买了几瓶来尝试。我买蜂蜜后不久，喉咙就很痛。我吃了一一些未稀释的蜂蜜，第二天我的喉咙就不再痛了。

从那时起，我每天早上以及喉咙感觉有点干燥的时候就服用野蜂蜜。我发现蜂蜜不仅有助于润喉（尤其在吃过热的或油炸的食物后）。它还有助于增强免疫力。现在我已经很少出现喉咙痛、伤风、咳嗽等症状了。

每天服用蜂蜜还有助于缓解便秘等肠道问题。我真的很喜欢暗金/黑蜂蜜，因为它不太甜而且富含抗氧化剂。这是野生蜂蜜，甜味天然，味道清爽。

ON 16TH FEB 2023, BOTH MY WIFE AND I WERE ROAMING AROUND WHITE SANDS SHOPPING MALL AND BY CHANCE, MET MR. RICHARD JEO WHO WAS PROMOTING HIS NATURAL WILD HONEY PRODUCT.

IT GOT US INTERESTED AS WE KNOW ALL ALONG, HONEY IS GOOD FOR OUR BODY.

MR RICHARD JEO EXPLAINED TO US ALL THE BENEFITS TO CONSUME HIS PRODUCT AND RECOMMENDED US TO DRINK THE DARKEST COLOUR HONEY (5 YEARS OLD TYPE) WHICH WILL IMPROVE MY HEALTH AS I WAS SUFFERING FROM INSOMNIA AND SOME ILLNESSES THAT I CONTRACTED A YEAR AGO.

AFTER HIS EXPLANATION, I DECIDED TO BUY 5 BOTTLES + 1 BOTTLE FREE NATURAL WILD HONEY FROM HIM. HE RECOMMENDED ME TO TAKE 2 SPOONS IN THE MORNING BEFORE FOOD AND 1 SPOON IN THE EVENING BEFORE SLEEP.

AFTER TAKING FOR A FEW MONTHS, MY IMMUNE SYSTEM IMPROVED TREMENDOUSLY. IT ALSO HELPS ME TO REDUCE PAIN AND DRY THROAT WHENEVER I HAVE SORE THROAT.

I AM ABLE TO BE ABLE TO FIND THE "RIGHT PRODUCT" AND WILL CONTINUE TO CONSUME THIS NATURAL WILD HONEY TO REAP ITS BENEFITS.

THANKS TO MR. RICHARD JEO FOR RECOMMENDING NATURAL WILD HONEY TO ME.

LET'S GET TOGETHER

2023年2月16日，我和妻子在White Sands购物中心闲逛，偶然遇到了正在推销天然野生蜂蜜的Richard Teo先生。

这引起了我们的兴趣，因为我们一直知道蜂蜜对我们的身体有益。

Richard Teo先生向我们解释了食用他的产品的所有好处，并建议我们喝颜色最深的蜂蜜（5年的熟蜜），这将改善我的健康，因为我一年前患有失眠和一些疾病。

经过他的解释，我决定向他购买5瓶+1瓶免费的天然野生蜂蜜。他建议我早上饭前服用两汤匙，晚上睡觉前服用一汤匙。

服用几个月后，我的免疫系统得到了极大的改善。当我喉咙痛时，它还能帮助我减轻喉咙痛和喉咙干燥的症状。

我很高兴能够找到“合适的产品”，并将继续食用这种天然野生蜂蜜以获取其益处。

感谢Richard Teo先生向我推荐天然野生蜂蜜

Since I was in primary three, my sensitive nose has been causing me to sneeze each morning, resulting in nasal congestion - runny nose, and coughing. This greatly affected my concentration in class and lectures. Additionally, my stool was sticky and I had problems with properly passing motion.

Four months ago, I was encouraged by my father to start trying Natural Wild Honey especially since past remedies including western medicine and TCM had not been working in my favour. To my surprise, my condition actually improved after a few months of daily honey consumption.

I sleep better and pass better motion. Overall, I feel more energetic and my allergic rhinitis has gone. Friends even say that I look more vibrant and alive. Not to mention, my concentration and focus has improved at school.

Thanks to Natural Wild Honey, my quality of life has been elevated. I will definitely be ordering more and taking it daily with my family members.

Thank you.

从小学三年级开始，我的鼻子就很敏感，每天早上都会打喷嚏，导致鼻塞、流鼻涕和咳嗽。这极大地影响了我上课和听课的注意力。此外，我的粪便很粘，我无法正常排便。

四个月前，我的父亲鼓励我开始尝试天然蜂蜜，因为我吃了西药也看了中医，这些治疗方法对我都没有效。令我惊讶的是，在每天食用蜂蜜几个月后，我的病情实际上有所改善。

我睡得更好并且能运动。总体而言，我感觉更有活力，过敏性鼻炎也消失了。朋友们甚至说我看起来更有活力。在学校，我更能集中注意力了。

感谢纯天然野生蜂蜜，我的生活质量得到了提高。我肯定会订购更多并每天与我的家人一起服用。

谢谢。

In the beginning of this year, I chance upon Natural Wild Honey at Chinatown Point. At that time, I was suffering from insomnia as I was under some medicines. Due to the medicines, my face is pale and my health is weak and I had constipation. Because of the constipation, the toxins built up in my body and my skin would be very itchy causing me to lose more sleep in the night.

When I first started to take the Natural Wild Honey (the dark colour one), my constipation improves. Gradually I was able to bowel daily.

On 13 Apr 2023, when I decided to stop the medication but continue to take the Natural Wild Honey, my sleep got better. Today, I am able to sleep normally and I sometime doze off on the sofa. Previously I was only able to sleep two to three hours but now averaging I can sleep about 6 to 8 hours.

Since taking 18 bottles of the Natural Wild Honey, my face no longer looks pale and my sugar level which was quite high is now 7.3 even when I eat like normal people like eating durians.

I would recommend this Natural Wild Honey to anyone as it is helping me a lot in my health a lot and I will be ordering another 6 bottles now.

今年年初，我在牛车水偶然发现了纯天然野生蜂蜜。当时我正在服用一些药物，所以失眠。由于药物的影响，我脸色苍白，身体虚弱，还有便秘。由于便秘，体内积聚的毒素使得皮肤很痒，导致我晚上失眠。当我第一次开始服用天然野生蜂蜜（深色蜂蜜）时，我的便秘有所改善。渐渐地，我可以每天排便了。

2023年4月13日，当我决定停止服药但继续服用天然野生蜂蜜时，我的睡眠变得更好了。今天我能正常睡觉了，有时会在沙发上打瞌睡。以前我只能睡两至三个小时，现在平均可以睡六到八个小时。

自从服用了18瓶天然野生蜂蜜后，我的脸色不再苍白，我之前的血糖水平很高后来降至7.3，就像健康人吃榴莲后的血糖水平。

我会向所有人推荐这种天然野生蜂蜜，因为它对我的健康有很大帮助，我现在将再订购六瓶。
