

NATURAL WILD HONEY CUSTOMER TESTIMONY 2023

纯天然野生蜂蜜
顾客见证 2023年

我喝了蜂蜜,不知不觉中就喝了很多年。
蜂蜜对血糖非常好的作用。

蜂蜜是一种美容品,早上起床,先喝一杯。
一杯蜂蜜来喝,可以让你上厕所的
时间较快。

当你的肝不好,是最好的保养品。

这是我最好的例子,有一天,我会每天煮
开水来泡咖啡,怎么知道,一不小心
被煮滚的水溢出来,就把我的手背
烫伤,水滚的温度应该是百多度,当
时非常的痛,我当时想到蜂蜜。

我当时立刻把蜂蜜涂在手背上,过了
二个小时,手的热度渐渐的那儿痛
过了几天,我发现我的手背都没有起泡。
之后手背的皮变的很难看,再过几天,
皮渐渐的脱落,我烫到是左手。
现在,我的左手背比右手背,还来的好看。
真开心。

I drank this honey for many years without realizing it. Honey has a very good effect on blood sugar.

Honey is a beauty agent. When you get up in the morning, make a cup of honey and drink it, which can help you pass motion faster. When your liver is not in good condition, it is the best skin care product.

This is my best example: I would boil water to make coffee every day. One day the boiling water accidentally overflowed and burned the back of my hand.. The temperature of the boiling water should be more than 100 degrees. At that time It hurt so much that I thought of honey.

I immediately applied honey to the back of my hand. After two hours, the heat in my hand gradually became less painful. After a few days, I found that there were no blisters on the back of my hand. After that, the skin on the back of my hands became ugly. After a few days, the skin gradually fell off. I was burned on my left hand, and now the back of my left hand looks better than the back of my right hand. I'm really happy.

Greetings! A few years ago, my family and I went to a department store and walked around. We saw a store specializing in honey. The store offers pure Natural Wild Honey. I was very curious and walked over to ask about the health benefits of honey. The sales person explained to us the efficacy and effects of Natural wild Honey. After listening, I said my husband had a sore throat. He said drinking honey is effective and will not hurt. Therefore, we bought a few bottles of honey and tried it at home. After consuming this Honey a few times, my husband's throat pain disappeared and I felt better. Sometimes you have a bad appetite, drinking a cup of honey will also stimulate your appetite. Just like that, I drank Natural Wild Honey for several years.

Thank you very much to the store sales representative for telling us about the benefits of wild honey.

Thanks! Yuejun

我喝纯天然野生蜂蜜已有将近3年，早晚一到两汤匙已经成为我的习惯，中间有一断时间我尝试不喝晚上就会睡得不好，所以就很确定蜂蜜对我的睡眠有很大的帮助。

我的外甥女自从喝了蜂蜜和涂蜂蜜润肤膏之后她的湿疹可以说是已经好了，但是如果她吃错东西她的湿疹又会回来，这时后野生蜂蜜和蜂蜜^膏又再起了很大的作用，现在连她的小女儿也爱喝蜂蜜，就算出国也一定带上它。

I have been consuming Natural Wild Honey for nearly 3 years. One to two tablespoons in the morning and evening has become my habit. There was a period of time when I tried not to drink it and I couldn't sleep well at night, so I'm pretty sure honey helped a lot with my sleep.

My niece's eczema has been cured since she drank honey and applied honey moisturizer. But if she ate the wrong things, her eczema would come back, and that's when Natural Wild Honey and honey balm came back to work. Even her little daughter now loves to drink honey and will definitely bring it with her even when she goes abroad.

Thank you for your company's products

我喝这野生野蜜有一段时间了。我和家人都非常喜欢这野生野蜜。喜欢它的味道香甜和浓厚的口感。因为外面很多卖的野蜜的味道是酸的，口感不好。

这野生野蜜帮助我的健康上有一定的改善。当我喉咙不舒服的时候我都会喝。它帮助我消除咳嗽问题。所以，每当我加家人咳嗽身体不舒服我们都会喝这野生野蜜。至少，我们不需要吃药物因为吃药物会伤害身体。

野生野蜜也帮助我能解决睡眠问题。现在的我比以前容易入睡，精神也改善，不容易疲倦。谢谢贵公司。

我会一直喝这野生野蜜也会推荐家人、朋友喝。希望可以帮助他们得到更好的健康。谢谢

've been drinking this Natural Wild Honey for a while. My family and I absolutely love this wild honey. Love its sweet taste and rich texture. Because a lot of honey sold outside is sour and tastes bad.

This Natural Wild Honey has helped me improve my health. I drink it whenever my throat feels uncomfortable. He helped me get rid of my cough problem. So, whenever my family and I have a cough or feel sick, we drink this Natural Wild Honey. At least, we don't need to take medicine, because taking medicine will harm the body.

Natural Wild Honey also helps me with my sleep issues. Now I fall asleep easier than before, my energy level is also improved and I don't get tired easily. Thank you for your company's Honey.

I will always consume this wild honey and recommend it to my family and friends. Hope it helps them get better health. Thanks!

In 2022, I bought a Natural wild honey from a counter on the third floor of heartland mall. The salesperson aunty Sue introduced the functions and benefits of Natural Wild Honey. It can be used externally for cuts and burns, and can also be taken internally. I am very satisfied with aunty Sue's introduction. I want to buy some spare ones to keep at home. There don't seem to be any disadvantages and Wild Honey has no expiry date. Wild Honey has many benefits. My family and I consume Natural wild honey for about a year. My family has made some progress physically. Defecation and gastrointestinal acid digestion improved. Common colds and coughs, and sometimes fever, sore throat, and excessive phlegm have all been reduced. After my son drank natural honey, the Acne on his face lessened. My son's stools are not so smelly and smooth. After drinking wild honey, my husband's immunity is better now, and his cough and sleep are much better. I myself have been drinking it for about a year and my sleep has improved a lot. Today, 7/11/2023, I went to the Kovan Natural Wild Honey stall again and purchased 7 bottles. Although it is expensive, our family's health has improved and our family is very happy. Our family would like to thank Natural Wild Honey for helping to improve our health.

今年春節期間，到朋友家中探訪，也是一名糖尿病患者，平時飲食，都會避免糖及碳水化合物類的食物，至於帶甜的飲品，如汽水等，更是避之則吉。在這次探訪中，他邀請我嘗試野生蜂蜜，令我大感驚奇，這是我首次接觸到天然野生蜂蜜。

經朋友大力推薦，我造訪了天然野生蜂蜜在敲鑼的店舖，購買了一套六瓶的野生蜂蜜。開始飲用時，覺得這野生蜂蜜質感很厚，很濃，帶有一股發酸的味道，飲用兩三天後，就能適應。

我沒有三高及糖尿等問題，但是腸胃一向不是太好，不時有胃風及脹滯的感覺。飲用野生蜂蜜初期，感覺體質並無太大的改變，但是排便較以往暢通，間中一天會排便兩至三次，放屁亦較以往頻密，我想這是野生蜂蜜的排毒功能發揮作用。

服用野生蜂蜜至今已經八個月了，腸胃脹風的情況，大為改善，傷風感冒的次數，亦較以往少很多，足以證明野生蜂蜜對增強身體免疫能力及幫助排毒，確實有功效。

我母親今年84歲，居於香港，因年事已高，體弱多病，經常要進出醫院，趁年底回港探親的機會，會購買一套六瓶野生蜂蜜作禮物，希望對老人家的健康狀況，有所改善。

I visited a friend's home during the New Year this year. He is a diabetic. He usually avoids sugar and carbohydrate foods in his diet. As for sweet drinks, such as soda, he avoids it. During this visit, he invited me to try wild honey, which surprised me. It was my first exposure to natural wild honey.

Recommended by a friend, I visited the Natural Wild Honey store in Kovan and purchased a set of six bottles of wild honey. When I started drinking it, I felt that the texture of this wild honey was very thick and strong, but it also had a fermented taste. After drinking it for two or three days, I got used to it.

I don't have any problems such as high blood pressure or diabetes, but my gastrointestinal condition has never been very good, and I feel gastric wind and bloating from time to time. In the early days of consuming Natural Wild Honey, I felt that my physical condition had not changed much, but my bowel movements were smoother than before. I would occasionally defecate two to three times a day, and my farts were also more frequent than before. I think this is where the detoxifying properties of wild honey come into play.

I have been taking Natural wild honey for eight months now, and my flatulence has been greatly improved, and the number of colds is much less than before. This proves that wild honey is indeed effective in enhancing the body's immunity and helping to detoxify.

My mother is 84 years old and lives in Hong Kong. Due to her old age and frail health, she often has to be in and out of the hospital.

When I return to Hong Kong to visit relatives at the end of the year, I will buy a set of six bottles of Natural wild honey as a gift for my elderly mother, hoping to improve her health.

In 2000, my friend bought Natural Wild Honey from the counter on the third floor of Kovan Heartland Mall. At the counter on the third floor, he saw many people buying the wild honey. At that time, my friend didn't believe that the wild honey really had so many health benefits. But my friend still bought a few bottles to try it out. Later my friend realized consuming wild honey has many good effects. He recommend the Honey to his family. For example, previously he would often catch a cold now but he rarely come down with flu, and throat's dryness which he often feel has disappeared. His stomach acidity and indigestion have also alleviated. beenThrough my friend's introduction, I went to Kovan Heartland Mall to buy pure natural wild honey to let my family try out this Honey. I think wild honey should be beneficial to our health. After consuming honey for a period of time, it helped my poor digestion. The phlegm in my husband's throat was much dissolved. Now my granddaughter, grandson, daughter, and son are all consuming this brand of wild honey. We rarely suffer from mouth ulcers. My family takes a scoop morning and night to boost our immunity. Three years later, I still order from Aunty Sue because of her help and introduction to the benefits of this product. Today I still insist on drinking wild honey and will support Natural Wild Honey thanks to her. 30/11/2023

It has been more than three years since I first bought Natural wild honey from the third floor of Kovan Heartland Mall. With the help of Aunty Sue's introduction, I learned about the benefits of wild honey. This Honey also brought great changes to my health. I am usually very busy at work and don't pay much attention to my diet. I eat out a lot. I used to have much phlegm in my throat every day. It's much better now. I also recommended my friends to take this wild honey. They said it was fine. My bowel movements were not smooth before, but now the Wild Honey has also relieved much of my bowel problems. There will be no sore throat problem either. I take one tablespoon every morning and evening, and my health has improved.

After consuming this Honey, problems that have been troubling me for many years have been resolved. I have less colds and coughs. I also had gastrointestinal discomfort previously and it was difficult to digest food. Now it is better and better. I personally think it is natural wild honey that is working in my body. Today, 28/11/2023, I went to the wild honey stall on the third floor of Kovan Heartland Mall to buy Natural Wild Raw Honey 7 bottles. I am a big supporter of natural wild honey!

Thanks again to the owner of Natural Wild Raw Honey for introducing this brand of wild honey to me.

One day I went to Heartland Mall in Kovan and was attracted by the sign of Wild Honey, so I walked in to have a look. The salesperson Aunty Sue patiently and carefully explained to me the benefits of consuming honey, so I bought two bottles to give it a try. Doubtful. Because I had taken other brands of honey before and it didn't seem to have any effect.

I have always had an uncomfortable feeling in my throat and lungs. It has improved a lot since I consumed wild honey. My lungs are ok, & breathing has become easy. My son has always had a problem with constipation, but it has been much relieved since he consumed wild honey.

After that I went to Kovan to buy honey. I also recommended my sister and friends to buy and consume it. I have aphthous ulcers in my mouth and will disappeared soon after consuming this honey. Here, I would like to thank Aunty Sue for her introduction. I will always support Natural Wild Raw Honey.

我想和大家推荐纯天然野生蜂蜜，以下是我和家人在使用这个产品之后的感想。

我们全家得新冠 (Covid-19) 期间，我们每天都有服用纯天然野生蜂蜜，这大大的缓解我和家人喉咙和身体疼痛的不适。

此外，这款蜂蜜还有其他的益处，比如：在得到口腔溃疡的时候，涂抹在伤口上，第二天就会有所好转。我的老公就是个很好的例子！之前吃东西时不小心咬伤嘴唇，我就让他拿蜂蜜涂在伤口上，第二天伤口平复，没有肿胀，几天之后就痊愈了。

最近，我的儿子身体莫名出现湿疹，皮肤表面出现很多小红斑点，皮肤特别瘙痒和脱皮忍不住想抓。涂了许多药膏都不见效。听身边的家人说可以涂蜂蜜试试，就让儿子照做，情况确实有所改善！

总的来说，纯天然野生蜂蜜对我和家人都有很大的帮助！

谢谢。

I would like to recommend natural wild honey to everyone. Here are my family's feedback after using this product.

During the time when our family was suffering from Covid-19, we took natural wild honey every day, which greatly relieved the throat and body pain of my family and me.

In addition, this honey has other benefits, such as: when you get aphthous ulcers, apply it on the wound, and it will get better the next day. My husband is a perfect example! When he accidentally bit his lip while eating, I asked him to apply honey on the wound. The wound calmed down the next day, there was no swelling, and it healed within a few days.

Recently, my son developed eczema inexplicably, with many small red spots appearing on the surface of his skin. His skin was extremely itchy and peeling and he couldn't help but want to scratch it. I applied many ointments but nothing worked. I heard from my family that I could try applying honey, so I asked my son to do it, and the situation did improve!

Overall, pure natural wild honey has been of great help to me and my family!

Thank you.

June Lee

致：纯天然野生蜂蜜。

在2023 5月15日下午，我觉得喉咙有些不舒服，还带点咳嗽，回到家我就马上喝蜂蜜，临睡前又喝。

5月16日我确诊得了 Covid 19。身体没什么大碍，就是喉咙不舒服，每当有灼热感，我就赶快起身喝蜂蜜，喝下去的感觉是蜂蜜到灼热处好像更烧，但我还是坚持，因为我不喜欢西药，我想靠天然处方治好我。我每两个小时就喝一勺。到早上起身就缓和了，也没灼热感。一整天下来，虽然还是不适，但还可忍受。但到了晚上，晕眩来了，我把蜂蜜都吐出来了。

5月17日我睡得不安稳，起来了好几次。到了下午又好些了，没什么不适，只是轻飘飘的。

5月18日，感觉头很痛，很重，还带打喷嚏伤口，没法入睡，我还是坚持每隔1小时起床喝蜂蜜。

5月19日，我痊愈了。

这5天 Covid 19 的战役经历，还算很好。比起我身边家人和朋友的经历，我的确是大幸运了。

感恩纯天然蜂蜜。

To: Natural Wild Honey

On the afternoon of May 15, 2023, I felt a little uncomfortable in my throat and had a cough. I took Natural Wild Honey immediately when I got home, and drank it again before going to bed.

On May 16, I was diagnosed with covid-19. There was nothing serious about my health, except that my throat felt uncomfortable. Whenever I felt a burning sensation, I would get up and drink the wild honey. When I drink it, I feel like the honey makes the burning area worse, but I insist on it because I don't like western medicine and I want to rely on natural prescriptions to cure me. I took a spoonful every two hours. When I got up in the morning, I felt relieved and had no burning sensation. Although I still felt uncomfortable throughout the day, it was bearable. But at night, the vertigo sets in and I spit out all the honey.

On May 17th, I didn't sleep well. I woke up several times. In the afternoon, I felt better again. I didn't feel any discomfort, just feeling light-headed.

On May 18th, I felt a very heavy headache, sneezing and cold, and couldn't sleep. I still insisted on getting up every hour to consume honey.

On May 19th, I recovered.

My experience in the five-day battle against COVID-19 has been quite good. Compared with the experiences of my family and friends around me, mine is considered lucky. Thank you natural wild honey.

这蜂蜜真的是物有所值,它可以放心长期饮用,肯定不会有副作用。

可能是我人老了,喉咙变得非常敏感,我如果练习唱歌,唱上一个小时,我整个晚上就不必睡觉,因为喉咙痒咳到不能好好睡觉,弄得我第二天起身非常困倦又憔悴。不够睡眠也会降低免疫力,常期生病看医生吃药不是办法,后来我发现饮用这种从印度尼西亞来的天然纯正蜂蜜可以改善我练歌之后,喉咙痒的困扰。

Natural Wild honey

Natural a Wild honey from Indonesia. I came to a unit in Chinatown B2 again. I just wanted to buy a bottle. When I was hesitating, Molly explained that the Singapore Food Control District had come to conduct a surprise inspection. , proved that this was 100% pure honey, so I decided to buy 5 bottles and get 1 free.

This honey is really worth the money. It can be consumed for a long time without any side effects.

Maybe it's because I'm getting old and my throat has become very sensitive. If I practice singing for an hour, I wouldn't be able to sleep the whole night because my throat is so itchy and I cough that I can't sleep well, which makes me very sleepy and tired when I wake up the next day. Haggard. Not getting enough sleep can also lower your immunity. If you are sick for a long time, seeing a doctor and taking medicine is not the answer. Later, I found that consuming this natural pure honey from Indonesia can soothe my itchy throat after practicing singing.

There are so many health products, but the one I trust most is natural pure honey, especially the 100% natural pure honey from Indonesia. It not only takes care of my throat, but also makes my life more energetic. It is really important to have good sleep quality and enough sleep. My friends don't believe that I am 76 years old. They all think that I am only about 50 years old. It turns out that consuming natural wild honey can also keep you young. If the boss asks me to be the spokesperson for an advertisement, I will be happy to do so.

首先，我自我介紹我的工作性質，我從事面包烘焙行業，每天都須要烘面包，時常感到口干燥熱，本身我年紀已經要到六十些了，體質慢慢感覺有點力不從心，眼睛尤其感到越來越模糊就在今年十月尾，在萬文購物中心三樓里蜂蜜莊售賣，看見了 Natural Wild Honey Pte Ltd 蜂蜜這個產品，當時我經過貴公司銷售部時，一位名叫 Lucy 銷售女士很細心地講解蜂蜜各種好處在她耐心的講解下我向她購買了一瓶回家試試！我連續喝早晚各一次，一星期后，我感覺眼睛看來東西沒那麼吃力了，身體也沒平時下班後的累，有很明顯改善了我體質，所以我又倒回去向 Lucy 銷售員購買了五枝，也感謝 Lucy 的介紹，我才決定買來試試！

謹此！

Feedback from customer Lim Wee Jin

First of all, let me introduce myself to the nature of my job. I work in the bread baking industry. I need to bake bread every day. I often feel dry and hot in my mouth. I am almost 60 years old, and my body gradually feels a little weak, especially my eyes. Getting blurry. At the end of October this year, I saw a honey salesperson on the third floor of Kovan Heartland Mall promoting the product Natural Wild Honey. When I passed by your counter, a sales lady named Lucy explained it very carefully. Various benefits of honey. After she patiently explained it, I bought a bottle from her and took it home to try! I took the Honey once in the morning and once in the evening. After a week, I felt that it was no longer difficult for my eyes to see! My body is not as tired as usual after get off work, and my physical condition has obviously improved, so I went back and bought five bottles from Lucy the salesperson. Thanks to Lucy's introduction, I decided to buy it and try it!
