This is my testimonial for the Natural Wild Honey Ptz Ltd. Alexandra Central Mall #01-20.

I have been taking the Black Wild Raw Honey for about three months. I am diabetic thus I avoid sweet foods. However, your Black Honey is suitable as it is not sweet and contains more antioxidant as advised by Mr Deborah.

It is not pleasant to taste but it is good for health. I am taking 2 tablespoons in the mornings.

I had a bout of covid but with Black Honey, it helped me to recover more quickly, more energetic and immunity strengthened.

Advice from Deborah is that raw honey is 100% organic, kill bacteria quickly, anti-viral and anti-inflammatory.

Black Honey is not readily available in Singapore. The main benefit is, the ability to maintain basic health and health building.

This special promotional price is a good incentive for me to buy and to bless others also, this Christmas.

Thank you very much for selling such a health beneficial product in Alexandra Central Mall in Singapore.

THANK YOU!

这是我给予Natural Wild Honey Pte Ltd, Alexandra Central Mall #01-20 的推荐书。

我服用黑色纯天然野生蜂蜜大约三个月了。我患有糖尿病，因此我尽量少吃甜食。然而，您的黑蜂蜜很适合我，因为它不甜，而且根据 Deborah 女士，这黑野生蜂蜜含有更多的抗氧化剂。

虽然这蜂蜜味道不太好，但其对健康有益。我早上服用 2 汤匙。

我发现当我感染新冠病毒时，服用黑蜂蜜有助于我更好复原。长期食用也使我更有活力，也有助于增强免疫力。

Deborah 说：野生蜂蜜是 100% 有机的，可杀菌，抗病毒和消炎。

黑蜂蜜在新加坡不是常见，对人体的主要益处是能够维持基本的身体健康。

这特别的促销很好，可鼓励我们顾客在这圣诞节购买购买蜂蜜的同时，与他人分享蜂蜜对自己健康的益处。

非常感谢您在新加坡的 Alexandra Central Mall 销售如此有益健康的产品。

I'm looking for genuine honey for my health supplements and happen to chance upon Natural Wild Honey at Northpoint. After enquiring with their sales staff Ms Silver, I decided to give it a try. I have high blood pressure, high cholesterol and borderline blood sugar level. Therefore I hope this wild honey can help control and maintain my these 3 issue.

On 3rd December 2022, I bought one bottle of the wild honey to try it out. After about three weeks, I've tested my blood pressure, it was good, it maintained at 125/86. I've also noticed my coughs disappeared and the usual phlegm also gone. I can easily pass motion every morning without hassle. It also make me sleep better at night, less toilet break in the middle of the night too. I've finished the bottle of

Today, I come back to get another five new bottle and hope to see my medical test report after finishing these bottles. My next medical review is on June 2023.

我正在寻找真正的蜂蜜作为我的保健品，并偶然在North Point找到了天然野生蜂蜜。在询问了他们的销售人员 Silver 女士后，我决定试一试。我有高血压、轻度高胆固醇和血糖水平稍微高。因此，我希望这种野生蜂蜜可以帮助控制我的3高。2022年12月3日，我买了一瓶野生蜂蜜试用。大约三周后，我测了血压，很好，维持在DS186。我还注意到我的咳嗽消失了，平时的痰也消失了。我每天早上都可以轻松地通便没烦恼。这也让我晚上睡得更好；半夜上厕所的次数也减少了。我已经服用完一瓶蜂蜜了，今天我回来再买几瓶，希望服用完这几瓶蜂蜜后能看到我的体检报告成绩有所进步。我的下一次体检是在2023年6月

I have heard of honey to be a very good health supplement. My friends also bought and asked me to try. So I bought for my mother. She is 90 years old - she had high cholesterol, high blood pressure about 150 sometimes 160. She also had high sugar level about 8-1. She also had constipation. Sometimes she could be one hour in the bathroom and still cannot pass, even though she drank like 2 litres of water a day. She also coughs a lot in the nights and had phlegm. So I started to let her drink - I did not expect much result. Because of her old age already.

Nov 2021 She started taking two soup spoons every morning since. After about three weeks her cough just stopped and the phlegm just disappeared. Now she sleeps so well in the nights.

She can pass motion at least 5 days a week, sometimes two times a day and a lot. Her motion is good quality, not wet.

Her last blood test in June 2022 showed the sugar level dropped to 4.5 - 5.0, the blood pressure is always 110 - 120, and her cholesterol especially LDL, has dropped to normal range.

Now everyone says her complexion looks radiant.

The doctor is very surprised and asked us what we feed her.

We will continue to let her take 2 soup spoons everyday. If a 90-year old not healthy person can improve so much, I hope everyone will try raw wild honey.

我听说蜂蜜是一种很好的保健品。我的朋友也服用野生蜂蜜，并推荐我试试。所以，我买给我妈妈，她 90 岁了，她有高胆固醇，高血压大约 150 有时 160。她的血糖水平也很高，大约 8-1。她也有便秘，有时她可以在厕所里呆上一个小时，但仍然无法排便，即使她每天喝了大约 1 升水。她晚上也经常咳嗽，而且有痰。于是，我开始让她喝蜂蜜，我还以为她年事已高，效果不大。从2021年11月开始，她开始每天早上喝两汤匙。大约三个星期后，她的咳嗽才停止，痰也才消失。现在她晚上睡得很好。她每周至少5天有排便，有时一天排便两次，甚至更多次。她的粪便质量好不稀烂。她最后一次验血是在2022年6月，血糖下降到4.5-5.0，血压一直在110-120，胆固醇特别是低密度脂蛋白也降到了正常范围。现在每个人都说她的肤色看起来容光焕发。医生很惊讶，问我们给她吃什么。我们将继续让她每天服用2汤匙。如果一个90岁不健康的人能改善这么多。我希望每个人都能尝试野生蜂蜜。

Hi Ms Deborah of NWH - Alexandra central Mall

Here is my testimonial to testify the benefits I have gained from the long-term consumption of the WILD RAW HONEY that I have bought from when you were at the Plaza Singapura outlet.

I have been a returning customer of your company for a long time.

I am a type - 2 diabetic patient with a diabetic reading of 10 prior to taking the WILD RAW HONEY. Since my long-termed consumption of the 100% organic RAW WILD HONEY, my diabetic reading has fallen and stabilised at just above 7 even with consumption of sweet food. Therefore, I strongly believe that the WILD RAW HONEY has greatly helped and benefited in controlling my previously uncontrolled Diabetes.

I have also introduced my daughter to the WILD RAW HONEY. She has taken the honey for a couple of months till date, and has found it to be beneficial especially for her gastritis. Since taking the WILD RAW HONEY, she has found herself to be suffering from gastritis episodes less frequently and can more frequently enjoy food that would previously has triggered her gastritis.

Therefore, I am convinced of the benefits of the consumption of the WILD RAW HONEY and recommend it to others.

这是我的见证，以证明我从长期食用您在Plaza Singapura分店购买的野生蜜中获得的益处。

长期以来，我一直是贵公司的回头客。

我是一名2型糖尿病患者，在服用野生蜂蜜之前，糖尿病为指数10。自从我长期食用100%有机野生蜂蜜后，即使享用甜食，我的糖尿病指数也下降并稳定在略高于7。因此，我坚信野生蜂蜜对以前无法控制的糖尿病有很大的帮助和改善。

我还向我的女儿介绍了天然野生蜂蜜。到目前为止，她已经服用了几个月的蜂蜜，自从服用野生蜂蜜后，她发现自己患胃炎的频率降低了，并且可以更频繁地享用以前会引发胃炎的食物。

因此，我深信食用野生蜂蜜的好处，并推荐给其他人。

Auntie Ah Sue, 妳好!

我妈妈最近血糖指数忽然飙升, 身体健康情况对于不理想的状态, 有一次还严重到需要进医院吊点滴来降低血糖, 因为妈妈以为喝野生蜂蜜会加重血糖的偏高. 所以就完全停止喝我买给她的野生蜂蜜, 可是没喝了情况反而更糟糕, 搞到要进医院吊点滴. 过后我告诉妈妈, Auntie Ah Sue 说糖尿病患者是可以喝最黑色的野生蜂蜜的, 而且有个案显示, 患有糖尿病的人喝了野生蜂蜜一段时间, 可以痊愈到不需要服用医生给的控制糖尿病的药. 所以妈妈最近一直都有继续喝我买给她的黑色野生蜂蜜. 身体情况也开始对于血糖平稳的水平状态, 也没有严重到需要去医院吊点滴, 所以我会继续给妈妈喝黑色的野生蜂蜜.

我们让朋友也知道野生蜂蜜是有很多好处的.

Hello Auntie Ah Sue! Recently, my mother's blood sugar index has suddenly soared, and her physical health is not in an ideal state. There was once it became so serious that she needed to be admitted to the hospital for drips to lower her blood sugar. I think the main reason is because my mother thought that taking wild honey would aggravate high blood sugar condition, she stopped consuming the Wild Honey I bought for her. After she stopped taking, her condition got worse, to the extent that she had to go to the hospital to be put on an IV. I told my mother that Untie Ah Sue said that diabetics can drink the darkest wild honey, and there are cases showing that people with diabetes who consume wild honey for a period of time can recover to the point where they don't need to take medicine prescribed by the doctor to control their diabetes. Thereafter my mother has been consuming the black wild honey I bought her recently. Her physical condition has started to improve and her blood sugar is maintained at a stable level, and didn't deteriorate to the stage that she need to go to the hospital for an IV. So I'll go ahead and continue to give my mother the black wild honey. We recommend to our friends the many health benefits of wild honey.

Ever since I and my wife try this product for a few months now, we notice that our health has largely improve. My blood sugar has improve and I have better energy. I would highly recommend this product to anybody of all ages. Thanks to Natural wild honey. My wife's condition has also improve tremendously.

We were skeptical in the beginning but were pleasantly surprise by the results due to many fake products in the market at the moment. The price is worth the results. I will definitely tell my family and friends about it. The honey taste natural and tasty. I am taking it without fail every morning and will continue to take.

自从我和妻子试用该产品几个月以来，注意到我们的健康状况有了很大改善。我的血糖有所降低，精力也更好了。我会向所有年龄段的人强烈推荐这款产品。

感谢天然野生蜂蜜。

我妻子的情况也有了很大的改善。起初我们持怀疑态度，但由于现在市场上有许多假冒产品，我们对效果感到惊喜。价格是值得的结果。

我会把这件事告诉我的家人和朋友。蜂蜜味道自然可口。每天早上一定会服用，并将继续服用。

I am a diabetic. I originally liked desserts, whether it was drinks or pastries, but it was very hard to quit because of diabetes. Now I know that pure natural wild honey is edible, so I bought a few bottles and tried it. There is no deterioration for the blood sugar, which can prove that it can be taken with peace of mind.

In addition, I often cough non-stop. Since taking pure natural wild honey, the problem of cough has gradually improved and the symptoms have gradually alleviated. I am very pleased.

In addition, I am 74 years old, also troubled by constipation like most of the other old people. I heard that pure honey can lubricate the intestines, I have a bowel movement on time every morning after taking it for several weeks. With these effects, I will continue to take pure natural wild honey, and I am full of confidence in it, thank you

I have problems with insomnia and a hypersensitive nose. My daughter has a problem with constipation. In a coincidental opportunity, a friend introduced me to drink pure natural wild honey.

After taking it for a period of time, the insomnia has improved a lot, the spirit is also good, and the nose is not so sensitive. My daughter was constipated, but she had a smooth bowel movement and became energetic after drinking wild honey for a period of time, so I drank wild honey every morning and evening.

Now my son has a nasal allergy problem after being infected with covid19, and he has a runny nose every morning. I also give him pure natural wild honey every day. I believe that pure natural wild honey can regulate the body of my family and improve our health.

Thank you for your company's products.

I have always been troubled by high blood pressure, high cholesterol and blood sugar, resulting in me spent a lot of money and much time seeing western doctors, but western medicine did not eradicate the root cause of my problem, I wasn't cured. Later, a friend introduced me to Natural Wild Honey, I took it for two months, and it took effect instantly, and my condition improved. Unknowingly, even my long-term constipation that troubled me for so many years was miraculously gone. Thankfully, it saved me of the constipation medicine, which saves me a lot of money. I really want to thank the boss of the Natural Wild Honey for his kindness and wisdom to bring in 100% Natural Wild Honey, which has saved many patients from suffering. Thanks to Mr. Teo for saving many lives. It will not only benefit myself, I will introduce it to friends in need, so that they will also benefit from it, so that the Natural Honey company will flourish and its business will flourish. To benefit all fellow beings
