感言:

自从喝了纯野生蜂蜜,两三天后就有明显效果,目前我已连续喝了快两瓶,以往经常感到腹胀,便秘一扫而空,当然也要配合正常饮食哦!上了年纪眼睛尤其感到泪水变少,早上空腹喝一汤匙时,顺便沾一点涂在眼角旁,最近感到眼睛有湿润感了,并且也感到皮肤光滑度有所改善,精神较好,不再这么困倦.经常网上说蜂蜜的好处,但往往我们买不到真正别人相信的蜂蜜,有些掺了糖水,得不到如期效果.自从喝了纯野生蜂蜜让我感到欣慰,终于找到一家卖真正蜂蜜的店家了! 谢之.

Testimonial:

Effects of taking pure Natural Wild Honey is pretty obvious, I can feel the effects after two to three days. So far, I have taken two bottles in a row. My abdomen used to feel bloated and after taking Natural Wild Honey, my constipation disappeared. Of course, this has to couple with healthy diet! Nevertheless, my eyes feel dry, as I age. Hence when I take a tablespoon of honey in the morning on an empty stomach, I will apply a little bit of Honey to the corners of my eyes. Recently, I feel my eyes are not as dry. I also feel that my skin become smoother. In general, I feel better, more energetic and no longer so sleepy. We often talk about the health benefits of honey over the Internet, but often we are unable to get hold of genuine pure honey. Some are adulterated honey and aren't able to deliver the expected health benefits. Since I started taking pure Natural Wild Honey, I feel so relieved that I finally found a merchant that sell genuine pure real honey! Thank you

致：纯天然野生蜂蜜公司。

我常有胃酸倒流，胃胀气和便秘的烦恼，看了医生吃了药也没有改善。

今年2月我在一个很偶然的机会得到朋友的介绍买了两瓶贵公司的自然蜂蜜，我饮用了一两个星期后，发觉到那多年的顽疾已经逐渐的改善，还有那经常便秘的痛苦也有了很明显的改善。我很喜欢吃煎炸的食物，所以也会经常有喉咙痛和痒，但自从喝了这个蜂蜜后就很少有这种情形发生了。

我感谢贵公司的产品替我解决了多年的烦恼。

谢谢！

I used to have stomachache, acid reflux, abdominal belatedness and constipation. I visited the doctor and took medication but my condition did not improve.

In February of this year, my friend recommended me to take Natural Wild Honey by chance. My friend bought me two bottles of your company's Natural Wild Honey. After taking it for one to two weeks, I realized that the chronic illnesses that had been troubling me for many years had gradually been relieved. And the agony of frequent constipation has also significantly subsided.

I like to eat deep-fried food, so I used to have sore throat and throat itching on and off. However since I started taking this honey, I rarely have sore throat.

I am very grateful that your company's products has solved the chronic problem that has troubled me for many years.

Why did I start taking Natural Wild Honey two years ago? Previously I often got heaty, sore throat and bad breath. Be it western pharmaceutical medicine or Traditional Chinese Medicine, it doesn't solve my problem. Coincidentally, I met a salesperson who told me the health benefits of taking Natural Wild Honey. I bought the Honey to give it a try. After finishing a bottle, I found that there was slight improvement in my condition. Hence, I continue to buy and take Honey till now. Taking Honey has saved me much money in terms of medical fees, as I see doctor less often, and the money saved can be used to buy more Honey. At the same time I enjoy better health.

一直以来都有便秘的问题，平均两至三天排一次便。喝了纯天然野生蜂蜜后，几乎每天都轻松排便。另外，纯天然野生蜂蜜也帮助我缓解一直以来困扰着我的神经紧张，改善了睡眠质量。几个星期下来，整个人变得更神清气爽有精神。而最近患上胃炎的丈夫喝了野蜜以后，也有感胃部不适得以减缓。种种好处让我们成了纯天然野蜜的固定服用者，每天早上醒来必喝上一杯，开始新的一天。

I have always had the problem of constipation. I defecate once every two to three days. After drinking pure natural wild honey, I can easily defecate almost every day. In addition, the pure natural wild honey has also helped me relieve the nervous tension that has always plagued me. It has also improved my sleep quality. After a few weeks, I became more refreshed and energetic. Recently, my husband who suffered from gastritis also started to take Natural Wild Honey and felt that his stomach discomfort was relieved. All these health benefits have made us regular consumers of pure Natural Wild Honey. We must drink a cup of Honey water every morning when we wake up to start a new day fresh.

从小就是一个蜜糖爱好者,也是日常一个惯性的饮料,也尝过新加坡各种各样的蜜糖,甚至到国外凡有当地的蜜糖,都不会错过的带回来!

但在一个偶然的闲逛时,一粒大蜂蜜吸引了我,原来是“纯天然野生蜂蜜”的促销会经过促销员的解说,我才知道原来蜂蜜竟然可缓解多种疾病!在这之前我一直只把蜂蜜当成一种普通好喝的饮料,也没有感觉蜂蜜有如此作用,我的身体向来都有便秘与失眠的苦恼,竟然促销员一直的向我保证一定有疗效,我就购了3瓶送一瓶的促销试试,也不当回事的一天喝它2①,一次一汤匙,在几天后的一个早上,当我上完大解时,才发现原来舒畅的大解是无可形容的“爽”,此时我也醒觉到我这两天都没吃安眠药也能一觉到天亮,闹钟响后才醒当时我的心情是非常的开心!我非常感恩“纯天然野生蜂蜜”让我改善身体的健康!! 谢谢!

I have been a honey lover since young. Honey water has become my daily habitual drink. I have tried many different kinds of honey in Singapore. Even when I travel abroad, where there's local honey, I will try not to miss it! Coincidentally, when I was shopping, a big logo with honey bee caught my attention. It turned out to be a "Natural Wild Honey" promotion. After listening to the promoter's explanation, I realized that honey can alleviate many diseases! Before this, I always regarded honey as an ordinary but tasty drink, and I did not feel that honey has such health effects. Previously, I had always been suffering from constipation and insomnia. Since the promoter assured me that the Honey will be effective for improving health, I bought three bottles and got one bottle free. I tried the Honey. I didn't take what the promoter said seriously. I took the Honey twice a day, each time one tablespoon. A few days later, after I experienced a major bowel movement, did I realize that it was so relieving. Bowel movement is indescribably

"cool". At the same time, I noticed that I could sleep till dawn without taking sleeping pills for the past two days. I only woke up after the alarm clock went off. I was very happy that I need not rely on sleeping pills!

I am very grateful that taking "Natural Wild Honey" has improved my health!!

大家好，我是一名 50 多岁的大叔。我已经喝了 9 瓶 Natural Wild Honey。自从我饮用了这个天然野生蜜糖，我察觉到了它带给我的很多好处。

首先，它的味道又香又甜，非常好喝，也能起到解渴的作用。

一开始，我时不时会咳嗽，倒置喉咙有痰。使用它过后，它不只是舒缓了我的喉咙疼痛，还具有化痰功效。

从我年轻到现在，我的皮肤就不是很好。随着年纪的增长，我身上也生了一些黑斑。喝了它之后，我脸上的痘痘少了很多，黑斑也淡化了许多。容光焕发！

我最近的胃口也变得很好，大概是因为我早晚服用了这个蜜糖，使我的肠胃有好转。

它竟然也帮助了我的睡眠和脱发问题。眼睛也有明显的进步，变得更明亮了。我也不再有便秘的问题。

我对这个 Natural Wild Honey 很满意，它值得信赖，所以我建议大家去买来试喝！

食用纯天然野生蜂蜜,一段时间后,身体出现反应,皮肤有痒痒状况,手特别多,脚部身体也有少许,我知道那是排毒痒痒症状,须要工作,两隻手不美观,想要去看医生,后来打一通电话给Richard Teo. 后来他介绍我擦 Honey Coconut 果然两三天就完全消失了,皮肤也滑起来了.

食用纯天然野生蜂蜜,眼睛两侧也有泪水,以前在找字典时字体那么小,也很吃力,双眼疲劳,也担心早逝,白内障问题. 自食用纯天然野生蜂蜜后,目前眼睛的视力,视线也很清晰. 鼻中的痰和黏液也在冲凉时,清理中得以排出. 肠道反应,身体里释放出废气放屁也多了,排便也顺畅.

健康方面,伤风,咳嗽,三高(高血压,高血脂和糖尿病)到目前是~~无~~的症状.

吃了一段时间,也分享给其他姐妹,亲友们吃,这时服用野生蜂蜜看到成效.

After consuming pure Natural Wild Honey for a period of time, I experienced healing crisis, there were some body reactions. My skin started to itch, rashes appeared on my hands and arms, a little came up on my legs, feet and body. I know that the itching symptom is a form of detoxification. But as I need work and my scratched hands and arms are quite unsightly. Hence I was thinking of visiting a doctor to treat my arms. Instead, I called Mr Rachel Teo, and he suggested that I apply the Wild Honey on my arms and hands, and true enough the rashes and itch disappeared in two to three days. My skin also became smoother.

There was tears at the corner of both my eyes after I started taking Natural Wild Honey. Previously, when I was looking up the dictionary, the font size was so small that it was very straining for my eyes, causing my eyes to be very tired. I was also worried about premature age cataract problems. After consuming Natural Wild Honey, my current eye vision, has become very clear. The sputum and mucus in the nose are also discharged during my bath cleansing process. There were reactions from my intestinal gut, I passed gas more often, and my bowel movement became smoother, I felt much more cleansed after defecation. In terms of general health, colds, coughs, and three highs (hypertension, hyperlipidemia and diabetes) rarely recurred. After taking Natural Wild Honey for a while, I also recommended it to my sisters, relatives and friends, encouraging them to take wild honey regularly in order to see its results.

我是在二年前,因为眼睛出现红蚊症,心里
七上八下,不知道是不是年纪大的关系,也不知道
要不要去给医生看。

有一天,去百货公司走走,看到柜台有卖蜜糖。
好奇之下,去看看,问了柜台有关蜜糖的好处。

他说:蜜糖对眼睛有好处,结果买回家试试。
喝过了一星期,我的眼睛红蚊不见了。我不敢相信,
我就一直服用蜜糖到现在,我是一名很喜欢运动

也不会觉的累。

Two years ago, because of eye floaters, I was very worried. I don't know if it is due to aging, and I don't know whether to visit the doctor.

One day, I went to a department store and came upon honey on sale at the counter. I was curious. I went to take a look at it and asked about the benefits of taking Honey. The sales representative said that taking Natural Wild Honey is good for the eyes, so I bought it to try. After taking for a week, my eyes feel great. I can't believe it. I continued taking honey until now. I likes to exercise. Every time before I go for work out, I will drink Honey. I will not feel tired while doing exercises.

Thank you!

我一有以來都有夜咳、喉嚨癢以及鼻子過敏的問題，雖然嚴重的時候都會去看西醫，或者去看中醫，拿治療這些症狀藥，但總覺得一直在吃藥也不是辦法。直到一年半前，我去 Heartland mall 時，看到有店家在賣野生蜂蜜，櫃位小姐一直跟我推薦他們的蜂蜜，說對喉嚨癢、夜咳這些症狀非常有效，我當時也是半信半疑的，但想說改善
反正蜂蜜也是好東西，沒效也是可以泡來當水喝。買回當天我睡前馬上試試看，沒想到讓我一夜好眠，沒有夜咳喉嚨癢的症狀影響我的睡眠。如果有跟我一樣症狀的人，真心推薦可以買來嚐試看看，尤其其中野生老蜜是
真的非常有效，會一試成主顧的。

I used to suffer from night coughs, throat itch and nasal allergy. When these symptoms became serious I would visit western doctor or TCM physician and take medication. However I always felt that taking medicine all the time is not a permanent solution. A year and a half ago, while shopping at Heartland Mall, I saw a store selling Natural Wild Honey. The lady at the counter kept recommending the Honey to me. She said, when it comes to alleviating symptoms of itchy throat and night cough, it was very effective. I was dubious at that time, but I knew that anyway honey is a healthy food. If it doesn't work, you can mix it with water and drink it as honey water. On the day I bought the Honey, I tried it before going to bed. Unexpectedly I slept very well that night, no night cough, my throat wasn't itchy, not affecting my sleep.

If you have the same symptoms as me, I truly recommended you to buy and try Natural Wild Honey. Wild aged Honey is truly effective. I will become a loyal customer.

纯天然野生蜂蜜

我和我先生一直以来都有喝蜂蜜的习惯，在早期的时候为了找到好的蜂蜜，不断的变换不同的品牌，但自从喝了 natural wild honey（纯天然野生蜂蜜）这家的蜂蜜后，就没有再去尝试其它品牌的蜂蜜了，因为这家的蜂蜜真的很不错。我先生是长期喝这家的黑色老蜜，他会在每天早晨空腹时喝一茶匙的黑蜜。他每天坚持喝过一段时间之后，发现他的排便改善了，没有了之前的困扰，而且最近他又发现当他看电话时也不需要带老花眼镜就可以看清信息，黑色老蜜确实很好，让我先生看到了它的效果；而我本人喝的是这家的新蜜蜂蜜，因为睡觉质量不好的问题一直困扰着我，所以当我看到说明书里说天然蜂蜜可以让人容易入眠，改善睡觉质量时，我就开始每天晚上睡觉之前喝一茶匙的蜂蜜，现在我的睡眠改善了很多，我们还是会继续喝这家的蜂蜜。

My husband and I have always had the habit of taking honey. During the earlier days, we constantly switched among different brands, to find good pure honey,. However, since we started taking the honey from Natural Wild Honey, we no longer switch to other brand, because this honey is really good. My husband has been taking this ripe black honey for some time. He will take a teaspoon of this black honey every morning on an empty stomach. After taking his Black Honey for a period of time every day, he found that his bowel movement has improved, and previously his other health ailments did not recur. Recently, he discovered that even without his reading glasses, he still can clearly see stuff on his mobile phone. The black ripe honey is really good, its effects on my husband is pretty evident.

I personally take the relative younger honey, because the problem of poor sleep had been bothering me for a long time. I learnt from the product write-up, that Natural Wild Honey promote good sleep, people can fall asleep easily after taking Honey. Hence, I started to take a teaspoon of Honey every night before going to bed. Now the quality of my sleep has improved significantly. We will continue to take this Honey.

我是在别人的介绍下开始喝 natural wild honey 纯天然野生蜂蜜，刚开始喝黑蜂蜜的时候有点抗拒，觉得没有什么作用，但在儿子的坚持下，我每天早上和睡觉之前都会喝一茶匙的黑蜂蜜，喝过几个月之后，发现我嘴巴口腔溃疡的状况在慢慢地改善中，之前每次不小心咬到自己或刷牙太用力时，就会引起口腔溃疡，而开始喝黑蜂蜜起，就算口腔有溃烂也没有之前那么痛，而且痊愈地特别快，现在我已经没有口腔溃疡地问题了，而在我喝完第二瓶的黑蜂蜜后，刚好到了去医院做身体检查的时期，当医生帮我量血压时，医生发现我的血压降低了，自从那次起，我觉得喝野生蜂蜜是有效的，所以现在我每天都坚持早晚各喝一茶匙的黑蜂蜜。

I started taking Natural Wild Honey under someone's recommendation. When I first started taking ripe black honey, I was a bit reluctant and didn't feel any effect. However, my son insisted that I continue taking Honey. I would take a teaspoon of Honey every morning and at night before going to bed. After taking black honey for a few months, I found that I gradually have less oral ulcer. When I accidentally bit myself or brushed my teeth too hard, it would cause oral ulceration. After taking black honey, even if I have oral ulceration, it is not as painful as before. Moreover, it healed very quickly. Now I don't have the problem of oral ulceration. When I was finishing my second bottle of black honey, it just happened to be the timing of my regular medical examination. When the doctor took reading of my blood pressure, the doctor found that my blood pressure had dropped. Since then, I realized that taking Natural Wild Honey is truly effective, so now I continue to take a teaspoon of black Honey every morning and evening.

我们一家人喝 natural wild honey 纯天然野生蜂蜜有将近两年多了。我女儿每天早上上学之前会喝一茶匙的新蜂蜜，然后再喝上一口白开水，她已经养成了习惯，刚开始喝的时候效果并不是很明显，但在连续喝过半年后，发现我女儿的感冒减少了，当初她每个月都要有几天会鼻子塞，或流鼻涕，而现在她的感冒症状明显的在减少，现在我女儿感冒的次数越来越少了，因为喝这家蜂蜜的关系，免疫力提高了很多；而我本人则是在每天早上和睡觉之前都会喝一茶匙的黑蜂蜜，喝了一段时间后，渐渐的发现自己的睡眠症状良好了很多，之前每天晚上都要起来三四次，而现在我只会在半夜起来一次，有时甚至可以一觉到天亮，这是我最开心的。我老公在喝酒之后都会喝上一杯温水泡的新蜂蜜水，在喝过之后他觉得人没有那么难受，我们觉得纯天然野蜂蜜在我们一家人的身上看到了不同的效果，觉得它确实不错。

My family has been taking Natural Wild Honey for nearly two years. My daughter would take a teaspoon of the young Honey followed by a cup of water every morning before going to school. She has developed the habit of taking Honey. At the beginning, the effect was not very evident. However, after taking Honey for half a year, I found that my daughter's rhinitis had subsided. Previously, she used to either have a stuffy nose or a running nose for a few days, every month, but now her rhinitis symptoms have evidently subsided. Now my daughter catches fewer and fewer colds. This Honey has also boosted my immunity greatly.

I myself take a teaspoon of the black Honey every morning and every evening before going to bed. After some time, I gradually found that the quality of my sleep improved a great deal. I used to get up three or four times every night, but now at most I only get up once in the middle of the night, or sometimes I can even sleep till dawn. This is the best!

My husband would take a glass of young Honey water., after drinking. Taking Honey water after drinking, makes him feel less uncomfortable.

Natural Wild Honey had different effect on different one of us.
Overall, we felt it is really good.

感谢贵公司提供的纯天然野生蜂蜜！记得初识贵公司的野蜜，是在一次机缘巧合的情况下。在一间商场无意间偶遇贵公司的摊位，听过介绍以后，半信半疑地买了效果最好的产品，心里还想着价格这样贵，估计不会再光顾第二次了，哈哈！

只是没有想到，自从购买之后，因为发现效果特别好，从此认准了贵公司的野蜜，结下了不解之缘。还记得服用野蜜之时，正值新冠病毒疯狂肆虐的时候，偏偏我的嗓子经常感到干涩疼痛不舒服，有时半夜被痛醒，天天提心吊胆，担心自己是不是中招了；而开始服用野蜜后，我发现嗓子舒服好多，同时，睡眠质量也比从前改善不少。在服用了一段时间后，野蜜已经成了家里的必备品，全家人谁嗓子不舒服了，就喝上一勺，效果立竿见影。

这样可以称为“宝物”的产品，希望有更多人知道，这样就会有更多人早日受益了！

Thank you for bringing us pure Natural Wild Honey. I remember that I first came upon your company's wild honey by chance. I co-incidentally ran into your company's booth in a mall. After listening to sales representative's introduction of Natural Wild Honey, I was skeptical about its efficacy. Then I thought it was pretty pricy, hence I told myself that, that is the first time and most likely the last time I buy this product. Ha ha! Just that, I didn't expect that I will stick to Natural Wild Honey since my first purchase, due to its particularly good effect on my health. I will remember to resort to taking Natural Wild Honey whenever my throat felt dry, painful or uncomfortable, during the new coronavirus pandemic. At times, my throat was sore till I woke up in the middle of the night, worrying that I contacted the new coronavirus. Then, I started taking Natural Wild Honey. Soon I found that my throat became more soothing, much more comfortable, and at the same time, the quality of my sleep has improved a great deal. After taking Natural Wild Honey for a period of time, I found that wild honey has become a must-have item at home. Whenever someone in the household throat itches or feels uncomfortable, he or she will take a table spoon of Natural Wild Honey, and its effect is immediate. I consider Natural Wild Honey as a "treasure". I hope more people will know about it, so that more people can benefit from it!

Time flies quickly. It has been several years since Ms Esther from your company, first introduced me to Natural Wild Honey.

Previously I used to suffer from acid reflux. Now, I don't need to take medicine anymore. Even my sensitive allergic nose is all right now. Having seen how well your company's Natural Wild Honey work on me, my daughter also started to take Natural Wild Honey, because she often gets sore throat. She would stir Honey into water and drink. After drinking the Honey water, her throat would be all right, saving her the trip to the doctor. How great!

Thank you, Natural Wild Honey! Thanks Ms Esther for your service, it has made it much more convenient for me!

So thankful!

Wish you good business.

在一次机缘巧合的情况下,遇到了 Natural Wild Honey 公司在一家大型购物商场内的 Road show。我当时在等孩子补习班下课,时间比较充裕,所以就怀着好奇的心情向 Natural Wild Honey 老板详细询问了产品的原产地,生产过程,品质管理和功效等等。

当我听到 Natural Wild Honey 老板提到野生蜂蜜对改善睡眠有帮助时,就联想到我年纪大的母亲,每天因为睡眠质量不好而不得不很早就起床。我因此立马决定购买了几瓶 Natural Wild Honey 给我母亲早晚服用,没想到大概两到三个月左右的时间,我母亲睡眠问题有所改善了。

现在我全家人都有吃 Natural Wild Honey 的野生蜂蜜。

Coincidentally, I ran into Natural Wild Honey a road show by in a large shopping mall. When I was waiting for my kid to finish his class, I got curious about Natural Wild Honey and started chatting with its owner about its origin, production process, quality control and efficacy of the products.

When I learnt from the owner that Natural Wild Honey helps improve quality of sleep, I thought of my elderly mother who had sleeping problems. 大家好，我是一名 50 多岁的大叔。我已经喝了 9 瓶 Natural Wild Honey。自从我饮用了这个天然野生蜜糖，我察觉到了它带给我的很多好处。

首先，它的味道又香又甜，非常好喝，也能起到解渴的作用。

一开始，我时不时会咳嗽，倒置喉咙有痰。使用它过后，它不只是舒缓了我的喉咙疼痛，还具有化痰功效。

从我年轻到现在，我的皮肤就不是很好。随着年纪的增长，我身上也生了一些黑斑。喝了它之后，我脸上的痘痘少了很多，黑斑也淡化了许多。容光焕发！

我最近的胃口也变得很好，大概是因为我早晚服用了这个蜜糖，使我的肠胃有好转。

它竟然也帮助了我的睡眠和脱发问题。眼睛也有明显的进步，变得更明亮了。我也不再有便秘的问题。

我对这个 Natural Wild Honey 很满意，它值得信赖，所以我建议大家去买来试喝！

食用纯天然野生蜂蜜,一段时间后,身体出现反应,皮肤有痒痒状况,手特别多,脚部身体也有少许,我知道那是排毒痒痒症状,须要工作,两隻手不美观,想要去看医生,后来打一通电话给Richard Teo. 后来他介绍我擦 Honey Coconut 果然两三天就完全消失了,皮肤也滑起来了.

食用纯天然野生蜂蜜,眼睛两侧也有泪水,以前在找字典时字体那么小,也很吃力,双眼疲劳,也担心早逝,白内障问题. 自食用纯天然野生蜂蜜后,目前眼睛的视力,视线也很清晰. 鼻中的痰和黏液也在冲凉时,清理中容易排出. 肠道反应,身体里释放出废气放屁也多了,排便也顺畅.

健康方面,伤风,咳嗽,三高(高血压,高血脂和糖尿病)到目前为止是~~无~~的症状.

吃了一段时间,也分享给其他姐妹,亲友们吃,这时服用野生蜂蜜看到成效.

After consuming pure Natural Wild Honey for a period of time, I experienced healing crisis, there were some body reactions. My skin started to itch, rashes appeared on my hands and arms, a little came up on my legs, feet and body. I know that the itching symptom is a form of detoxification. But as I need work and my scratched hands and arms are quite unsightly. Hence I was thinking of visiting a doctor to treat my arms. Instead, I called Mr Rachel Teo, and he suggested that I apply the Wild Honey on my arms and hands, and true enough the rashes and itch disappeared in two to three days. My skin also became smoother.

There was tears at the corner of both my eyes after I started taking Natural Wild Honey. Previously, when I was looking up the dictionary, the font size was so small that it was very straining for my eyes, causing my eyes to be very tired. I was also worried about premature age cataract problems. After consuming Natural Wild Honey, my current eye vision, has become very clear. The sputum and mucus in the nose are also discharged during my bath cleansing process. There were reactions from my intestinal gut, I passed gas more often, and my bowel movement became smoother, I felt much more cleansed after defecation. In terms of general health, colds, coughs, and three highs (hypertension, hyperlipidemia and diabetes) rarely recurred. After taking Natural Wild Honey for a while, I also recommended it to my sisters, relatives and friends, encouraging them to take wild honey regularly in order to see its results.

Hi! Hello everyone! I am Cindy. First of all, I would like to thank Richard Teo for introducing this pure natural wild honey to me.

I have been consuming this pure natural honey for about a year now. I take this honey because every morning when I wake up, I'd have much phlegm in my throat. I'm very busy every day yet I feel tired, a bit lack of energy.. I thought why not just try pure natural wild honey!

After purchasing it, I gave it a try, it tasted pretty good. I take two tablespoons every morning and one tablespoon at night. Today, I've less phlegm in my throat, my condition has improved.

I have two sons, my eldest son has sensitive skin and occasionally develops rubella. I'd bring him to see a doctor. Sometimes, his whole body would become sore red and develop measles, it was very itchy. Hence, I gave him two tablespoons of Honey every day.

As for my younger son, he is in his puberty, he has pimples on his face. Hence, I also started giving him a tablespoon of honey every morning and evening.

Now my two sons' skin has begun to improve. I am really grateful to the pure natural wild bees, which has benefited my whole family. I will continue to support your company. Thanks!

之前，我经常有口腔溃疡，于是我向医生咨询如何改善我的这种症状，但没有改善。

今年4月左右，我在Heartland Mall逛街的时候偶然看到了一个广告，于是我决定试一试纯天然野生蜂蜜 Natural Wild Honey。一开始我还时不时地有口腔溃疡，但是当我服用野蜜大约 3-4 个月后，我惊喜地发现我口腔出现溃疡几率越来越少，状况也改善了很多。

除此之外，喝这种蜂蜜还能让我晚上睡得更好，我相信还有其他我还没有发现的好处。因此，我想鼓励其他人也尝试一下这野蜜，因为它会帮助您保健养生。

我在為文購物中心遇到一位向他談我的野生蜂蜜。听过他的讲解我便去店尝试了，也因此我是不喜欢使用西药来促进我的健康。一位健康的人。

自四月起，喝了野生蜂蜜后，感觉我的睡眠质量好了不少。睡眠的改善，也使我更有活力来精力充沛。更重要的是我的胆固醇也恢复了正常的水平了。至今我已把这款“野生蜂蜜”当作我的唯一恢复与增强体的饮料了。

有好几年多次的路过高文二楼的

走近去听和了解产品。

不知不觉得Auntie Sue的声耳濡目染,

据说蜂蜜营养非一般丰富,益处多万,
很自然得本人自己也要效取无数功效

和促进整体安好而加强了食物消化,
调理便秘的功能。排出了无宜之物不仅
恢复肠胃还提升免疫力抵抗周遭之无各病菌。
多般的好处直接得保持了全家大小体质健康。
明显的是有助眠之提高睡眠质量好让精神状态
更佳,好帮脑自然得调理记忆等。

至今,已经买了十二瓶蜂蜜于全家老少好共享

I have passed by the Natural wild honey kiosk on the third floor of Kovan Heartland Mall frequently in the past several years. Out of curiosity I was drawn to the kiosk to listen to sales person's introduction of the product.

Unknowingly, I was drawn to Auntie Sue's explanation, I decided to try it out and experience its effects personally. This is when my whole family started consuming honey every day. It is said that honey is extremely nutritious and bring about many health benefits. It is natural that I myself can feel its many effects and benefits. Personally, I think that this honey promote digestion and help regulates bowel movement, hence reduce constipation because honey can sterilize and reduce inflammation and promote overall well-being. Excretion of toxins not only restores the gut microbeam balance, but also enhances immunity against unknown germs. Its various good effects keep the whole family healthy. Obviously, it can help promote sleep, improve quality of sleep, making mental state better, at the same time help promote brain health and enhance memory.

So far, I have bought twelve bottles of honey to share among my whole family. Every family member is also experiencing more and more body and mind benefits day by day: my own blood pressure has also lowered, my family members are in better spirits, and overall there has been a lot of improvement. From the bottom of my heart, I would like to thank Natural Wild Honey and Auntie Sue for their detailed explanation. We will continue to support Natural Wild Honey, happy new year!

见证

纯天然野生蜂蜜

在偶然的情况下，购买了几瓶纯天然野生蜂蜜。

老人家今年已七十岁，属于亚健康、肠胃会有不舒服的症状，排便也不很顺畅。

自从喝了纯天然野生蜂蜜后，感觉上肠胃的操作较正常。晚间大概^是小肠挪动，会响屁连连。早上作伸展体操时，也会频频打呃。想是把体内浊气清除。

原本不大相信，每天喝 1-2 次。可能^{导致}血糖会增加。结果经过 2 次的体检，血糖都没有增加。

我相信蜂蜜是健康食品，不是治病的药物。所以应该持续的食用，长年累月的冲泡，它自会慢^慢地^把体内的管道修正，各器官渐能良好的操作。身体也就更加健康了。

I bought several bottles of pure natural wild honey by chance.

I'm an old ma, aged 70- year-old this year I can be considered in the not so healthy category. Previously, my stomach often felt very uncomfortable, and my bowel movement was not very smooth.

Since I started taking natural wild honey., I feel that my stomach and gut operation seem to return to normal. At night, air seem to move in my small intestine, I will pass gas again and again. When I do stretching exercises in the morning, I will keep burping, I think this is to cleanse the stagnant air in my body.

Initially, I didn't really believe it, but I stick to taking it 1-2 times a day. I was worried it may cause blood sugar to rise. After consuming 2 bottles of honey, my blood sugar didn't rise.

I believe that honey is a healthy food, not a medicine for curing diseases, so it should be consumed continuously. I believe after years of honey consumption it can gradually adjust the meridian system in the body, till all the organs can function well, then the body will be healthier.

To whom it may concern:

My family and I have been taking honey from Natural Wild Honey for many years. We take it first thing in the morning with empty stomach daily.

My mother is a diabetes patient but she has no problem to take this natural honey and her blood sugar level always under control on top of her strict diet for many years...

Whenever I have mouth ulcer, I always apply it directly on it and got fully recovered on the next day.

For the past years, we hardly suffer any sore throat which I believed that the honey we intake has the soothing effect and it kills germs and bacterial.

With other benefits like a good source of antioxidants and wound healing from the

honey, we will definitely continue to intake.

Thank you.

我和我的家人多年来一直服用纯天然野生蜂蜜。 我们每天早上空腹服用这蜂蜜。

我的妈妈是糖尿病患者，但她服用这天然野生蜂蜜并没给她带来问题，而且在多年来严格饮食控制的基础上，她的血糖水平被控制良好范围之内……

每当我有口腔溃疡时，我会直接将蜂蜜涂在上面，第二天就完全康复了。

在过去的几年里，我们几乎没喉咙痛，我相信我们服用的蜂蜜有润喉作用，它可以杀死菌菌。

蜂蜜还有其他好处，如蜂蜜是抗氧化剂的良好来源，也有助于伤口愈合，我们一定会继续食用蜂蜜。

谢谢。

Testimony of Jeannie Tan (contact number 87218[REDACTED])

For a very long period of time, I have very bad cough condition that affected my sleep badly every night.

In late 2019, my younger brother introduced Natural Wild Honey to me. Since then, I have been taking them twice a day in the morning and in the night before bed.

After the first week, I started coughing a lot and by the second week, I started coughing out a lot of phlegm and my sleep did not improve at all. I had wanted to give up since my condition did not improve but had actually gotten worse. But my brother told me that what I experience was natural and encouraged me to continue taking the honey.

Hence, I continued and gradually by the 7th or 8th week, my cough improved and more importantly, my sleep also improved progressively. And now, my sleep has improved remarkably and I don't get up frequently every night. I am now sleeping soundlessly for between 7 and 8 hours.

Natural Wild Honey is a wonderful product that is natural without any side effect to my health. I will continue to consume this honey for my health.

顾客Jeannie Tan的反馈：

我的咳嗽问题在很长一段时期里都非常严重，大大地影响了我夜间的睡眠。2019年末，我的弟弟向我介绍了纯天然野生蜂蜜。从那时起，我每天早上和晚间睡前都会服用野蜜，一天两次。

开始服用野蜜一个星期后，我开始咳得更厉害；第二个星期，我开始咳出很多痰，而且我的睡眠仍很不好。由于我的症状没有好转，实际上还恶化了，因此我不想坚持下去。但弟弟说，我所经历的这些都是正常的（好转反应），他鼓励我坚持服用野蜜。于是，我坚持服用野生蜂蜜。到了第7或第8周，我的咳嗽逐渐地缓解，更重要的是，我的睡眠也渐渐地有所改善。现在，我的睡眠有了显著的改善，不再经常半夜起床，每晚可不打鼾地睡上7至8小时。纯天然野生蜂蜜是极好的天然产品，对我的健康没有任何副作用。

Testimonial on Natural Wild Honey

I was introduced to drink this honey by a friend some 6 months ago. Initially I was very doubtful of the benefit of this product.

I went to Kovan branch and was introduced to the product by Ms Sue who patiently explain how good the product is.

I have diabetes, high blood pressure, high cholesterol and Epilepsy. My health is pretty bad and I tell myself there is no harm trying this honey product. Ms Sue recommended that I drink No. 3 honey and I have been drinking for the past 5 months. To my surprise I found that my energy level has increased, I can sleep better and I am not constipated.

Going for my medical check-up proved that my diabetes has reduced from 10 to 6.9 level, my high blood pressure has normalise and high cholesterol under control.

I believe there is something in the honey that balance my body thereby improving my health.

I strongly recommend this product to everyone who care about their health.

纯天然野生蜂蜜顾客反馈

大约六个月前，一位朋友介绍我喝这款蜂蜜。最初，我对此产品所声称的功效有所怀疑。

我光顾了公司于Kovan的档口，苏女士向我介绍了该产品，她耐心地解释了该产品的功效。

我患有糖尿病，高血压，高胆固醇和癫痫。我的健康状况很糟，我告诉自己，这天然的野生蜂蜜应该是有益无害的。苏女士建议我喝3号蜂蜜。至今我已喝了5个月的野蜜。令我惊讶的是，我发现自己更有精力，睡得更好，同时不再便秘了。体检后，发现我的血糖指数从（糖尿病患的）10降至6.9，原本高的血压也恢复正常了，胆固醇也得到控制了。我相信纯天然野生蜂蜜可调理我的身体，从而改善我的健康。我大力推荐所有关心自己健康的人服用此产品。

Hi Richard,

I have been taking Natural Wild Honey for the past 2 years plus. Every morning and evening, I will take one tablespoon of Wild Honey. I find it to be very good.

For the past 10 years, my cholesterol level and blood pressure have been pretty high. I would have to visit the doctor every 6 months.

Last week during my routine check-up, the doctor was very surprised, he commented, "How come your cholesterol level and blood pressure are back to normal?" The doctor stopped giving me cholesterol-lowering pill. Dosage of blood pressure lowering medication has also been reduced.

After taking Natural Wild Honey for a period of time, my bowel movement has become very smooth, I become more energetic, even my hip joint pain problem has been relieved.

You have to try taking Natural Wild Honey yourself, before you can really feel its effects and health benefits.

Richard，你好！

我饮用纯天然野生蜂蜜已有两年多了，早晚一汤匙，感觉很好。

过去十年来，由于我有高血压、高胆固醇的问题，因此我得每六个月复诊一次。上个星期复诊时，医生很惊讶地问道：“怎么你的胆固醇、血压都恢复正常？”医生不再开降胆固醇的药给我了，降血压的药也减量了。

喝野蜜一段时间后，我通便很顺畅，人也精神起来了，之前的膝关节酸痛也不常发作了。

你得亲自尝试服用野蜜，才会体验到喝野蜜的益处。

My wife had suffer for few years over her cough issue which has never been resolves and xray also shows no infection too.

Natural Wild Honey was introduced by my sister in law. She shared her story on her cough issue and how she met the boss of Natural Wild Honey at the road show.

Immediately we went to Plaza Singapura as she needed to stock up her honey. This is how we get to know this great product, it was unbelievable to see the sign at the counter that says Money Back Guarantee. Deborah also explain how it works. We did not sign up for the program but straight away purchase the 3+1 bottle.

Ever since my wife started taking Natural Raw Honey daily 2x a day faithfully, till the end 3rd bottle I realise her cough has reduce tremendously. I am extremely happy for her that she can rest properly at night with lesser cough and her health also has improved. Her immunity has gone up and she does not get sick too often.

Recently one of my dogs voice was weak when she barks, she is 13 year old and I tried feeding her honey which she rejected.

After few tries, she finally and willingly lick from the plastic spoon. Last 2 days I could hear her barking as powerful as she was during her younger days. Natural Wild Honey works wonders not only on human but animals too.

Now on daily basis, I share this great product with my dogs too.

我太太久咳不愈的问题已有数年，咳嗽一直困扰着她，照了X光片也没查到哪里感染。

我的弟媳介绍我们喝纯天然野生蜂蜜。她叙述了她的咳嗽问题，以及她是如何在路演上碰到纯天然野生蜂蜜老板的经过。

说完后，她便领我们到Plaza Singapura天然野生蜂蜜的档口，因为刚好她需要购买野蜜。就这样，我们得知市面上有这么好的产品。我们在柜台前看到“无效退款的保证”告示，简直太令人难以置信了。销售员Deborah给我们解释了无效退款健康改善计划的明细。我们没参加该计划，但购买了“买3送1”的配套。

我们坚持每天服用2次野蜜，直到喝完第3瓶，我才发现我太太的咳嗽已大大地减轻。我为她感到高兴，夜间她的咳嗽也减少了许多，让她可好好地休息，而且她的整体健康状况也得到了改善。她的免疫力增强了，不会经常生病了。

最近，我发现我爱犬吠时，声音很微弱，它今年13岁了，当时我尝试喂它吃蜂蜜，但它不吃。

经过几次尝试后，它终于愿意从塑料勺中舔蜂蜜了。最近两天，我能听出它吠的声音变得像它年轻时一样有力。纯天然野生蜂蜜不仅对人有益，对动物也有奇效。

现在，我们与爱犬每天都会享用这极好的产品。纯天然野生蜂蜜，真神奇！

As a diabetic, I am constantly on the lookout for good, useful wellness products. I came across Natural Wild Honey @ Plaza Singapura.

Their product has answered all my questions about 100% organic honey and given me the confidence to try out.

The results are evident! Just after a couple of days of consumption, I find bowel movement to be more regular and my energy level increased while maintaining good blood sugar levels.

I have seen many brands of honey, my one concern has been how they are packaged.

Storing in a glass bottle is one way I ensure the quality of the pure honey has not been comprised in any way, as plastic releases toxin after a while.

I strongly recommend Natural Wild Honey.

On a last note, don't hesitate to try your 1st bottle!

作为糖尿病患者，我一直在寻找优质且实用的保健品。我经过纯天然野生蜂蜜位于Plaza Singapura的销售点。

贵公司回答了我所有有关100%纯天然野生蜂蜜的问题，这给了我尝试的信心。

效果很明显！食用几天后，我发现排便时间更加规律，体力增加了，同时我的血糖值也保持在良好水平。

我见过很多品牌的蜂蜜，我最关注的是蜂蜜的包装，将蜂蜜存放在玻璃瓶中可确保纯蜂蜜的品质，是最好的包装方式之一，因为塑料过一段时间后会释放毒素。

我大力推荐纯天然野生蜂蜜。

最后，劝请还未喝过这野蜜的人不要犹豫，试试看！

TESTIMONIAL FOR NATURAL WILD HONEY.

I thank God for leading me to Horens shopping mall about 2½ years ago. Mr Richard Teo was having a roadshow on Natural wild raw honey.

He had given me knowledge on the nutritive properties of wild raw honey -

I was persuaded to try out the honey to test for myself.

After consuming the raw wild honey for 6 months I started to embark on this amazing product which I can't get elsewhere as far as raw wild honey is concerned.

In the past I used to loose weight but after taking raw honey for the year my weight had stabilized as I had better nutrition for my health.

For past 2½ years I have not contracted any coughs, cold or flu so I think this wild raw honey have been benefitting my health tremendously.

Two weeks ago, I was amazed by myself that at my age of 78 years old, I could managed to buy and carry 2 medium size water melons & a huge 2½ kg papaya

in my roller bag and travel on buses.

The daily consumption of raw wild honey has given me the strength to go shopping very frequently as well as doing various errands for my family.

Thank you Mr Richard Teo and Mrs Deborah for your raw honey and good services may God bless you all!

纯天然野生蜂蜜见证

感谢两年半前把我带到蜂蜜购物中心，Richard Teo先生在那里有一个蜂蜜展（roadshow），他让我了解了野生蜂蜜的营养价值。他劝我亲自尝试野生蜂蜜。

食用6个月后，就纯天然野生蜂蜜产品的惊奇而言，是其它野生蜂蜜产品不可比拟的。

过去，我经常体重减轻，但服用纯天然野生蜂蜜产品一年以后，它补充了我的营养健康，体重稳定了。

在过去的两年半中，我没有咳嗽，感冒或者流感，我认为纯天然野生蜂蜜对我的健康有益！

两周前，我感到很惊奇，我78岁的年纪，竟然可以购买并可以把2个中等大小的西瓜和一个重达2.5公斤的番木瓜搬进我的购物包里，然后拉到公共汽车上。

每天食用野生蜂蜜使我有能力经常去购物以及为家人做各种差事。

谢谢Richard Teo先生和Deborah女士提供的优质服务。
愿上帝保佑大家！

Testimony for Natural Wild Honey

I experience heatiness due to the unhealthy food I consume after work, and drinking water mixed with Natural Wild Honey has been nothing but beneficial to me as it instantly makes the heatiness go away.

Consuming Natural Wild Honey (No.4 Aged) was a life-changer: there is nothing like it in the market of organic honey that I frequently browse. For starters, I cannot stress the health benefits that derives from this product enough - having gastritis is a common pain for everyone, but after taking Natural Wild Honey daily, the pain seemingly lessened and I feel the relief in my gut as I go to work everyday without fear of the pain coming back for the day.

I strongly recommend Natural Wild honey to similar people like me who have sensitive stomachs as a good alternative to the everyday drinking water. It changed my lifestyle, and you should experience this for yourself.

Big Thanks to Esther.

天然野生蜂蜜的见证

由于不健康的饮食习惯，我经常出现发热症状。饮用添加了天然野蜂蜜的水，对我非常有益，它立刻让发热症状消失。

食用天然野生蜂蜜（No.4 aged）改变了我的生活：我从没在市场上找到过天然蜂蜜。对于刚刚接触蜂蜜的人来说，我无法充分的阐述出我从该产品中获得的健康益处 - 胃炎是很多人的常见病。但从我每天服用天然野生蜂蜜后，疼痛似乎减轻了。我每天上班时感到内脏得到了缓解，不必担心疼痛会再次出现。

我强烈推荐天然野生蜂蜜，作为日常饮水的完美替代品，给像我这样肠胃敏感的人。它改变了我的生活方式，你也应该亲自体验一下。

Testimony – Natural Wild Honey

I have been taking Natural Wild Honey since two years ago, and am still doing so on a regular basis, for maintenance.

With the outbreak of Covid-19 this year, it has become even more so my family's go-to panacea for all the little discomforts that cropped up while we were stuck at home during the Circuit Breaker period.

It has proven its benefits many times over. I know of someone who tried it for digestive problems – she was previously very skeptical about the honey's properties, but she is now a firm believer as the honey helped ease and improve the condition.

I have no hesitation in recommending this product; in fact, I have done so and my friends are also enjoying the benefits.

至：纯天然野生蜂蜜

我从这里买了另一类型蜂蜜，1、2和3号蜂蜜。这蜂蜜非常滑口，没有人造甜味剂。

这野生蜂蜜有助于治疗喉咙痛和咳嗽。当我们嗓子发痒时，我会单单吞一汤匙3号蜂蜜，强度特别好。通常我喝了两汤匙蜂蜜的第二天我的嗓子就会恢复到像之前一样好。

无需人工甜味，这野生蜂蜜水喝起来很清爽，口感很好。

我的孩子每两天食用一次野生蜂蜜，以增强免疫力，预防流感。与麦卢卡蜂蜜相比，孩子们更喜欢天然野生蜂蜜。

我强烈推荐成人食用2号和3号野生蜂蜜，以保健并预防常见疾病。

It was before just Covid-19 bombshell throughout the whole world when I just bought Natural Wild Honey. With the special promotion, we bought 6 bottles at one go.

We had tried the three different stages of the honey and love the taste. It is like wine, full bodied, medium and also one with a young light taste, in accordance to the age of the honey gathered. They are sweet but unlike others, doesn't have a sugar-like candy sweetness. They are light and pure.

I am a person who need food intake at specific meal hours or otherwise my gastric will strike. Ever since I have this honey, I take it regularly three times a day - morning before breakfast, lunch and before sleep. Since then, I am able to delay 1-2 hours of food intake (because of work), before consuming a proper meal and gastric doesn't look me up anymore.

I also helps with my cholesterol because recent checks showed it's been regulated and I do not take any medication at all.

Thank ya Natural Wild Honey. You are great!

我是在新冠疫情全球爆发前一次性购买了六瓶纯天然野生蜂蜜时。

我们尝试了不同颜色的野蜜，很喜欢它的味道。根据蜂蜜年龄发酵程度不一，一些老蜜就像葡萄酒一样，浓郁的酒味，有药效，浅色蜂蜜属年轻蜂蜜。

野生蜂蜜很甜，但不像其他糖果或糖那么甜腻。感觉这野蜜很纯正轻盈。

我是一个需要定时用餐进食的人，而且在正餐之间还得吃东西，否则我会有胃酸问题。自从我认识这款野蜜后，我每天早餐前，午餐前和睡前都会服用这野蜜，一天三次。从那时起，我可以延后进餐时间1-2个小时的，由于工作关系得延迟进餐时间，而不再有胃胃酸问题。

这野蜜对我胆固醇问题有帮助，近期体检报告显示我的固醇已得到控制，而我根本没有服用任何药物。

谢谢你的纯天然野生蜂蜜。你很棒！

When my mother introduced me to take Natural Wild Honey, I was reluctant to take it, because I did not believe that it would provide me with any health benefits. But, I still took the honey daily just because I was told to do so by my mother.

Fast forward to a year later, I began to realize how important and helpful the honey was, towards my ~~was to~~ health. My family and I went on a holiday to the UK, and unfortunately, during the trip, I caught covid-19. Since I was overseas, I could only resort to taking medicines to relieve my symptoms. However, I was still coughing very badly when we were on the way back to Singapore. As soon as I reached home, I quickly took the honey. After about three consecutive days of taking one tablespoon of honey, I realized that my cough has stopped. From then onwards, I have never been more thankful that such a product existed in Singapore, that could be so effective in making an improvement in my health.

当妈妈介绍我服用天然野生蜂蜜时，我不太愿意服用，因为我不相信它会对我的健康有任何好处。但我仍然每天服用蜂蜜，因为我妈妈告诉我要这样做。

快进到一年后，我开始意识到蜂蜜对我的健康有多么重要和有帮助。我和我的家人去英国度假，不幸的是，在旅途中，我在海外感染了covid-19，我只能通过吃药来缓解症状。

然而，在我们回新加坡的路上，我仍然咳嗽得很厉害。一到家，我就赶紧把蜂蜜拿了过来。在连续三天服用一汤匙蜂蜜后，我发现我的咳嗽已经停止了。

从那时起，我非常感谢新加坡有这样一种产品，它可以如此有效地改善我的健康。

I have been taking natural wild honey for close to 1 year, I have never been faithful to any health products for a long time. This is the only products I feel it really nourish and de-toxify my body. Daily one spoonful is maintenance for overall health and immunity support. For days when I feel my immune is low, sore throat and headache building up, a tablespoon of honey will ease me from getting flu and cold. My son even reminded me to drink Honey when I am having headache, heartiness and cough, he said work very well for him. I have prolonged dry cough which is due to excessive taking of cough syrup, the lining of my throat is very sensitive and easily irritated. Once itch trigger I will need to cough so hard that I feel I am coughing out my lungs. After taking natural wild honey my dry cough situations gets need and I hardly have this encounter.

我服用天然野生蜂蜜将近一年了。长期以来，我从未对任何保健品保持忠诚。这是我觉得唯一能够真正滋养和净化我的身体的产品。每天一勺是维护整体健康和免疫支持。几天来，当我觉得自己的免疫力低下、喉咙痛和头痛加剧时，一汤匙蜂蜜会让我远离流感和感冒。当我头痛、上火和咳嗽时，我儿子还提醒我喝蜂蜜。他说对他来说很管用很好。我长期干咳，是因为服用了过多的止咳糖浆，我的喉咙粘膜非常敏感，

很容易受到刺激。一旦触发瘙痒，我就需要用力咳嗽，以至于我觉得自己的肺都要咳出来了。服用天然野生蜂蜜后，我的干咳情况好了，我几乎没有遇到过这种情况。我把这种蜂蜜推荐给了我好朋友的丈夫，他因为喉咙痛每个月要去看几次医生。此后，他不再因喉咙痛去看医生。从那时起，他就向所有朋友推荐。我强烈建议所有人服用这种天然野生蜂蜜以获得更好的健康。

When I had influenza few months back, I suffered fever (38.9°C) and severe sore throat. At that time, I only could take normal Manuka honey from Australia. I tried gargling with salt water, baking soda and drank herbal teas. My fever lasted five days until I had to see the doctor and the doctor keep insisting it must be Covid as all the symptoms were like it. However, the test she administered did not show the second line so it was not Covid. I took only panadol and lozenges after seeing the doctor. Somehow, the fever and sore throat left me couple of days after that. Two weeks after I had recovered from this scary episode of influenza, I went to take Covid vaccination, thinking it would protect me from getting Covid.

Lo and behold, after few days (after taking the vaccination) I had high fever 39°C and even more extreme

sore throat this time! It was worse than the influenza!

In fact, the sore throat stayed after five days of fever!

I gave up trying to take any medication or honey. Then

one day, I walked past the Natural wild honey booth

at Tiong Bahru Plaza. Somehow, it was like God-prompted

me to stop and take a closer look. The lady was

helpful to explain yet not pushy. I was desperate

so I bought one bottle → the darkest one. I took two

tablespoonful of it before I set slept as by the time

I got home was late evening. I felt the pain in my

throat lessened by half after fifteen minutes.

The next day, the pain in my throat reduced

so much that it was unbelievable! I took 2 tablespoons

of it in the morning and by that night, the pain

was almost gone. The next day, the pain had left.

Since then, I continued with 2 tbsp in the morn

once I wake and one tbsp before sleep. It also helped
my skin improve and eyes less dry.

几个月前我得了流感，发烧（38.9°C）和喉咙痛得很厉害。那时，我只会从澳大利亚购买普通的麦卢卡蜂蜜。我试着用盐水、小苏打漱口并喝了草药茶。我的发烧持续了五天，直到我不得不去看医生，而医生一直坚持认为它一定是 Covid，因为所有的症状都像它。但是，她进行的测试没有显示两条线，因此不是 Covid。看过医生后，我只服用了 Panadol 和含片。不知何故，发烧和喉咙痛几天后就离开了我。在我从这次可怕的流感发作中康复两周后，我去接种了新冠疫苗，以为它可以保护我免于感染新冠病毒。

你看，打完疫苗几天后，我发高烧39°C，这次喉咙痛得更厉害了。这比流感还严重。事实上，发烧五天后喉咙痛仍然存在。我放弃了尝试服用任何药物或蜂蜜。然后有一天，我路过Tiong Bahru Plaza的Natural Wild Honey摊位，不知何故，就像上帝催促我停下来仔细看看。这位女士乐于解释但不急于求成。我很绝望，所以我买了一瓶，颜色最深的那一瓶。我睡前喝了两汤匙，因为到家时已是深夜。十五分钟后，我感到喉咙痛减轻了一半。

第二天，我喉咙里的疼痛减轻了很多，令人难以置信。我早上又服用了2 汤匙，到那天晚上，疼痛几乎消失了。第二天，疼痛消失了。从那以后，我早上醒来后继续服用2 汤匙，睡前服用1 汤匙。

I had previously tried a variety of honey but the vast majority is usually processed in some way before packaging. Most honey also includes some form of artificial sweetener or refined sugar. I discovered Natural Wild Honey in September 2022.

Within the first week of consumption, I experienced increased flatulence and ease of bowel movement. I was advised that this is actually the honey enabling the body to purge impurities from within. By the second week, I felt increased energy levels and overall quicker recovery from strenuous exercise. Before taking this honey, I also suffered from mild insomnia but ever since I started taking Natural Wild Honey, I have experienced generally better sleep.

The best part of Natural Wild Honey that makes it unique is that it is packaged directly from the source, without any processing or preservatives. It does not go bad and can be stored and consumed over extended periods. It has natural healing properties which makes it suitable for those suffering from chronic ailments.

我以前尝试过各种蜂蜜，但绝大多数通常在包装前经过某种方式处理。大多数蜂蜜还含有某种形式的人造甜味剂或精制糖。我在 2022 年 9 月发现了天然野生蜂蜜。在服用的第一周内，我的肠胃胀气增加，排便顺畅。有人告诉我，这是使身体从内部清除杂质的蜂蜜。到第二周时，我感到精力充沛，从剧烈运动中恢复得更快。在服用这种蜂蜜之前，我也患有轻度失眠症，但自从我开始服用天然野生蜂蜜后，我的睡眠普遍改善了。天然野生蜂蜜的独特之处在于它是直接从源头包装的，没有任何加工或防腐剂。它不会变质，可以长期储存和食用。它具有天然的治疗特性，适合那些患有慢性疾病的人。

Reasons why I choose to buy the wild Raw Honey over the years :-

- ⇒ I mix the raw honey with lemon to drink and it helps in soothing my throat.
- when I have cough or sore throat, I take a tablespoon of the honey and I got better after a few days. My cough was gone.
- ⇒ There was once I got burned by hot oil while frying, immediately I applied Raw honey on for 15 min and re-applied a few times, (after running thru the water to clean off the oil before I applied the raw honey) Amazingly, no infection and no pus and the raw honey helps in the healing.
- ⇒ I use the honey to dab on the corner of my eyes when my eye was red and itchy. (The only thing is I feel some burning sensation that make me uncomfortable) other than that, no issues, and my eye's problem was solved.

→ I use the raw honey to apply on my daughter's ulcer, for couple of days, her ulcer got better and she don't feel any pain after the application.

→ I apply raw honey when I have eczema on my fingers. It helps but need to apply for many days until the eczema is better.

→ I dab the honey on my pimple (tiny one) the pimple is gone.

多年来我选择购买野生蜂蜜的原因： -

- 我把野生蜂蜜和柠檬混合喝，它有助于舒缓我的喉咙

- 当我咳嗽或喉咙痛时，我会服用 2 汤匙蜂蜜，几天后就会好转。我的咳嗽消失了。

- 有一次我在油炸的时候被热油烫伤了，我马上涂上生蜂蜜15分钟，然后重新涂几次，（在我涂生蜂蜜之前先用水冲掉油）。令人惊讶的是，没有感染，也没有化脓，生蜂蜜有助于愈合。

- 当我的眼睛又红又痒的时候，我会用蜂蜜在眼角处轻拍。唯一的问题是我感到有些灼热感让我不舒服，除此之外，没有问题，我的眼睛问题就解决了。

- 我用生蜂蜜涂在我女儿的口腔溃疡上，用了几天，她的溃疡好了，涂了之后也不痛了。

- 当我的手指出现湿疹时，我会涂抹生蜂蜜。它有帮助，但需要涂抹很多天，直到湿疹好转。

- 我在我的粉刺（小粉刺）上涂抹蜂蜜，粉刺消失了

Testimony of Consuming Natural Wild Honey
I always have sinus issue since young. Every morning I will sneeze many time, I have tried many remedies to aid my sinus issue but to no avail.

There will be a pile of used tissue every morning and I had grown accustomed, I tested positive for Covid and my sinus issue became worst. To add on, I was having sore throat and fever. My nose block is so bad that I had to breathe through my mouth. Luckily,

one of my relative recommended me to try out Natural Wild Honey. Told me to take a table spoon of honey in the morning and at night.

At first I have I thought it will not cure my symptoms as I have been trying many different methods to cure it. However, I decided to give it a try. Much to my surprise after 2 days of consuming the wild honey, my sinus and sore throat began to subside. As each day passes by, my sinus issue in the morning slowly became less serious than before and I recovered from Covid within a week. I was shocked by the result and I began to have faith in the product. Until now, I'm still taking the honey 2 time a day. I will definitely recommend Natural Wild Honey to anyone that has sinus issue.

Thank you, Natural Wild Honey, for curing my sinus.

我从小就有鼻窦问题。每天早上我都会打很多喷嚏。尝试了很多补救措施来解决我的鼻窦问题，但都无济于事。

每天早上都会有一堆用过的纸巾，已经习惯了。当我的 covid 测试呈阳性，鼻窦问题变得最严重。更糟糕的是，喉咙痛和发烧。我的鼻塞太糟糕了，不得不用嘴呼吸。幸运的是，我的一位亲戚推荐我尝试天然野生蜂蜜。告诉我早上和晚上各服用一汤匙蜂蜜。

起初，我认为它不会治愈我的症状，因为我一直在尝试许多不同的方法来治愈它，于是决定试一试。令我惊讶的是，食用野生蜂蜜 2 天后，我的鼻窦和喉咙痛开始消退。随着时间一天天过去，早上的鼻窦问题慢慢变得不像以前那么严重，在一周内从 covid 中恢复过来，这令我震惊，我开始对产品产生信心。直到现在，仍然每天服用两次蜂蜜。我会向任何有鼻窦问题的人推荐天然野生蜂蜜。

谢谢您，天然野生蜂蜜治愈了我的鼻窦炎。

I have been taking natural wild honey for several years. Initially, my night cough improved. Then during my subsequent blood tests, my blood count is improved too, all within healthy range.

Even my blood pressure has gradually reduced to within the healthy range.

Before taking natural wild honey, I am prone to common cold, cough, and fall sick easily. Now, I feel healthier and feel much better, which I believe my immunity has vastly improved, due to the benefit from the honey.

I am taking it daily before I sleep without fail, and will continue to do so.

Thank you for the great honey. I have been hesitant to try honey for years, I realize how beneficial honey can be as I have chronic digestive issues since I was a child and tried a number of enzymes, probiotics and everything else you can imagine. It has made me taken a step back from health products.

Nothing has helped like this honey. Upon a few times of using it, my stomach has got better. I give my children to try and they love it, it gives them more immunity as their cough and cold symptoms has greatly reduce. Since then my kids are taking them regularly as health supplements and they no longer has runny noses. Cough & Seasonal allergies.

I highly recommend wild honey to any of those with busy life style and irregular schedule in order to maintain themselves at higher state of health. Keep up the good work!

谢谢你的好蜂蜜。多年来我一直犹豫要不要尝试蜂蜜。意识到蜂蜜是多么有益，因为我从小就有慢性消化问题，尝试了几种酶、益生菌和你能想象到的一切。这让我对保健品退了一步。

没有什么比这更有效了，亲爱的。用了几次后，我的胃好了很多。我让我的孩子们尝试，他们很喜欢，因为他们的咳嗽和感冒症状大大减轻了，这给了他们更多的免疫力。因为我的孩子们经常服用它们作为保健品，他们不再因季节性过敏而流鼻涕。

I bought a lot of natural wild honey for my mum since my sister says my mother likes it and is doing well from taking the honey. We can see that my mother usually feels very happy when she eats the honey and can tell us she likes the taste.

One night in the middle of the night I felt cold sweat and had a stomach ache. But I had already cleared my bowels a few hours ago. I could not sleep all night very uncomfortable.

In the morning, I woke up feeling cold, feverish, nausea, heart beating fast & like I was going to have diarrhea. I thought I had covid or food poisoning. I didn't feel like eating anything. So I just tried taking 2 big spoons of this honey. Surprisingly one hour later, I went to the bathroom and cleared bowels again, not diarrhea, very good motion. Then I felt very good after that. No more nausea, cold sweat, no more fast heart beats, no more fever. So amazing! No need to take any medicine and I am ok. I feel confident now to continue this honey.

Thank you

我给妈妈买了很多天然的野生蜂蜜，因为我姐姐说我妈妈很喜欢，而且吃了蜂蜜后身体很好。我们可以看到，我妈妈通常在吃蜂蜜时会感到非常高兴，并且可以告诉我们她喜欢这种味道。

一天晚上半夜，我感到冷汗和胃痛。但是我几个小时前就已经清过肠了。我整晚无法入睡，非常难受。

早上醒来时，我感到寒冷、发烧、恶心、心跳加快，好像要拉肚子了。我以为我得了新冠病毒或食物中毒。我什么都不想吃。所以，我只是尝试服用2大汤匙这种蜂蜜。没想到一小时后，我又去洗手间大便了，没有拉肚子，很好的运动。在那之后我感觉很好。不再恶心，不再出冷汗，不再心跳加快，不再发烧。如此惊人！不需要吃任何药，我没事。我现在有信心继续这种蜂蜜。

谢谢你！

Benefits of Natural Wild Honey

I have been consuming Natural Wild Honey for about one year. It has thus far cured me of my gastric. When I drink coffee last year or eat spicy food, I will feel uncomfortable because of gastric pain. After consuming honey for sometime, my gastric is gone. I can now drink coffee & eat curry and spicy food without having to feel gastric pain. Another benefit I feel is my alleviation of my knee pain when I walk up the stairs. I used to have some knee pain/leg pain while walking up the stairs. Now the pain seems to go be no more. I think it must be the Natural Wild Honey which I have been consuming for the past one year.

I was shopping in Jem on one Saturday night and happened to pass-by the counter selling Natural Wild Raw Honey. Ms Ester explained to me about the benefit of consuming Wild Raw Honey. I was very interested and curious to try out myself so I bought six bottles from her.

At that time, my son just recovered from COVID-19 and was coughing very badly. I decided to give him one spoon three times a day without mixing with water. In about a week, he was fully recovered. Both my son and myself were very amazed with the result.

Normally I will take a long time to fall asleep and wake up every night to go to the toilet. I also drink a cup of honey every night before bedtime and now I can sleep through out the night and wake up fresh and have more energy.

I love the taste of the wild raw honey and my family members also love it. Every morning before breakfast I will mix everyone a cup of honey and it really helps to keep us healthy. I will continue to consume and hope to see more improvement soon.

一个星期六晚上，我在 JEM 购物，碰巧路过出售天然野生蜂蜜的柜台。 Esther 女士向我解释了食用野生蜂蜜的好处。 我很感兴趣也很想尝试一下，所以我从她那里买了六瓶。

那时，我的儿子刚从 covid19 中恢复过来，咳嗽得很厉害。 我决定每天3次给他一汤匙，不掺水。 大约一周后，他就完全康复了。 我和我的儿子都对结果感到非常惊讶。

通常，我每天晚上都会花很长时间才能入睡并醒来上厕所。 我还每晚睡前喝一杯蜂蜜，现在我可以睡一整夜，醒来时神清气爽，精力充沛。

我喜欢野生蜂蜜的味道，我的家人也喜欢它。 每天早餐前我都会给每个人配一杯蜂蜜，这真的有助于保持我们的健康。 我会继续消费并希望很快看到更多改善

Having to work from home and juggling with taking care of my child due to pandemic for three years, I was diagnosed with high blood pressure. I was only in my early forties. I could not believe it at first when the doctor at the health screening clinic told me. I thought it usually happens to elderly people. I told my sister and she recommended me to try 'Natural Wild Honey'. I was at my wits end and decided to take it thinking honey does no harm. I diligently take it every morning and night for 3-4 months. Coupled with regular exercise and eating healthily, my blood pressure reading has come off to a more normalised mark. I encourage people to take this honey as it has 'healing' properties and of course, keeping your mental health in check is equally important.

由于大流行三年，不得不在家工作并兼顾带孩子。我被诊断出患有高血压。我才四十出头。起初，当健康检查诊所的医生告诉我时，我简直不敢相信，认为这通常发生在老年人身上。我告诉我姐姐，她推荐我试试天然野生蜂蜜。我不知所措但决定接受它，认为蜂蜜没有害处。我每天早晚都认真服用它，持续了 3-4 个月。再加上经常锻炼和健康饮食，我的血压读数已经达到了一个更正常的水平。我鼓励人们服用这种蜂蜜，因为它具有“治疗”特性，当然，控制您的心理健康也同样重要。

在我开始喝这种天然野生蜂蜜之前，我的胃胀得很厉害，不停地打嗝，有时胃酸过高导致我咳嗽几个月。喝了你们的天然野蜂蜜后，开始好了，肚子不胀气了，咳嗽也好了。

除此之外，它还帮助我排便，帮助我排便顺畅，我现在可以吃我想吃的东西了。

此外，我的长期疲劳也有所缓解。我不再经常感到疲倦，我的免疫系统也得到了改善。另外，我晚上也会用野生蜂蜜的残渣敷在脸上当面膜。我可以看到改善，雀斑确实减少了，我看起来比同龄人年轻。我会强烈建议我的朋友和亲戚喝它以拥有更健康的身体。

hi Richard Teo,

Since 27th June 2022, after consumed 15 bottles of your "Natural Wild Honey" LG + DG series, the followings were my experiences to share.

1. In 2 days, my urinations were plentiful + foamy and cannot be delayed to release - Seem its "cleansing" was effective.
2. In 7 days onward, lots of farts till today - seem "detoxification"
3. Within a month, I had no feeling of "lethargy" after each job and after each job done, my appetite remained as good, and feeling more alert than being sleepy.
4. After 3 months, I had phlegm developed for 3-5 days, but it's tiny and whitish with frequent throat irritations throughout the day even when lying down.
5. After 4 months, again I had phlegm developed for 3 days but this time I lost my voice badly and recovered completely by continuing drinking the honey mixed with water instead of my usual "neat-direct" from the bottle - Seem my throat inflamed.
6. After 5 months, again I had phlegm for 3-5 days with mild irritation.
7. Without your further explanations on the product, I was already inspired by your agility seen running up and down the staircases of an over-head bridge late in the nite even after a long day.

Thank for recommendation and will continue my consumption daily.

自2022年6月27日起，用了15瓶你们的天然野蜂蜜LG+DG系列后，以下是我的心得分享。

1. 2天后，我的小便又多又泡沫，不能延迟释放——看来它的“清洁”是有效的。
2. 7天后，放很多屁到今天——好像是在“排毒”。
3. 一个月内，每次做完工作后，我都没有“昏昏欲睡”的感觉，每次做完工作后，我的胃口都很好，比困倦更清醒。
4. 3个月后，我出现了3-5天的痰，但痰是细小的，呈白色，即使躺下也整天经常喉咙发炎。
5. 4个月后，我再次出现痰3天，但这次我的声音严重失声，通过继续饮用蜂蜜混合水而不是我通常从瓶子里直接“直接”饮用，我的喉咙似乎发炎了，完全恢复了。
6. 5个月后，我再次有痰3-5天，有轻微刺激。
7. 没有你对产品的进一步解释，我已经激发了你的敏捷性，即使在漫长的一天之后看到深夜在高架桥的楼梯上跑上跑下。

感谢推荐，我会继续每天消费。

I have been giving my daughter this Natural Wild Raw Honey since she was 1.5 years old and she is turning 3. We give it to her as honey water as a sweet treat and to encourage her to drink more water.

I strongly believe that we are what we eat, and my daughter's immunity has been relatively good, I would say even better than me. She does not fall sick much even though she goes to childcare, so it's very good for working parents like us.

We have also turned to giving honey water to my daughter during her few episodes of being sick. When she was down with hand foot mouth disease (HFMD), she could hardly eat anything so we gave her honey in hope that the anti-viral properties and nutrients could tide her through the period without food intake. She recovered from HFMD quite quickly without the symptoms getting too serious. We also gave her honey when she was down with stomach flu with the same thinking. She was asymptomatic when she caught the covid virus, and immunity has remained good even though lot of people complained of poor immunity in their kids after recovering from covid.

Many thanks also to Auntie Sue from the Kovan outlet, for always being so helpful. I hope continuing to give my daughter this natural wild raw honey will keep her healthy and strong.

我女儿从 1.5 岁起就开始给她服用这种天然野生蜂蜜，她快 3 岁了。我们把它作为蜂蜜水给她作为甜点，并鼓励她多喝水。

我坚信我们是我们所吃的，我女儿的免疫力一直比较好，可以说比我还好。即使去托儿所也很少生病，所以对我们这样的上班族父母来说非常好。

在我女儿生病的几次发作期间，我们也转向给她喝蜂蜜水。当她患上手足口病 (HFMD) 时，她几乎无法进食，所以我们给了她蜂蜜，希望蜂蜜的抗病毒特性和营养成分可以帮助她度过禁食期。她很快就从手足口病中恢复过来，症状没有变得太严重。我们也抱着同样的想法，在她得了肠胃感冒的时候给了她蜂蜜。她感染新冠病毒时没有任何症状，免疫力一直保持良好的，尽管很多人抱怨他们的孩子从新冠病毒中恢复过来后免疫力很差。

也非常感谢 Kovan 分店的苏阿姨，她总是乐于助人。我希望继续给我的女儿这种天然野生蜂蜜会让她保持健康和强壮。

Testimonial - Natural Wild Honey

I have been consuming Natural Wild Honey since 2019. I will take one tablespoon of wild honey on an empty stomach before breakfast and dinner. This natural wild honey not only for consumption but also for external application as well.

I have applied it on my face every morning and leave it for about 15 minutes before I washed it off. My face felt clean and smooth. At the same time, this natural wild honey also served as a moisturizer and I do not have to buy a separate shaving foam for my morning shaved.

Sometimes when my eyes feel dry; I will apply a little bit of natural wild honey to the corners of my eyes and blink rapidly. Thereafter, it felt much better and not so dry anymore.

After taking Natural Wild Honey for a period of times, my bowel movement has been improved and smooth. I become more energetic and alert when I worked.

I hope more peoples will know about this honey and give it a try to feel its effects and health benefits.

我从2019年开始服用天然野生蜂蜜。我会在早餐和晚餐前空腹服用一汤匙野生蜂蜜。这种天然的野生蜂蜜不仅可以食用，还可以外用。

我每天早上都把它涂在脸上，等了大约15分钟才洗掉。我的脸感觉干净光滑。同时，这种天然的野生蜂蜜也起到了保湿的作用，早上刮胡子的时候不用再单独买剃须泡沫了。

有时当我感到眼睛干涩时；我会在眼角涂一点天然野生蜂蜜，然后快速眨眼。此后，感觉好多了，不再那么干燥了。

服用天然野蜂蜜一段时间后，大便改善，顺畅。当我工作时，我变得更有活力和警觉。

希望更多的人了解这种蜂蜜，并尝试一下，感受它的功效和健康益处。

Last year, I encountered Natural Wild Honey in Sun Plaza and I straight away purchased for four bottles (the darkest honey) based on the recommendations of a repurchase customer.

I used to have a sore throat, especially when I wake up in the morning. After purchasing this honey, I will consume a spoon of honey before going to bed. This is really great and it did relieve my sore throat the next morning.

In addition, natural wild honey helps reduce my constipation problem. After taking wild honey, I found that my bowel movements improved. Now, obviously reduce my trouble.

Since I found natural wild honey to be very useful and amazing, I introduced it to my family and friends. They also feedback to me that raw honey is very effective in improving night cough and sleep. Now they rarely suffer from insomnia after taking raw honey.

This honey is highly recommended and will continue to support in the future!

Your Faithfully,

去年，我在Sun plaza遇到了天然野生蜂蜜，并根据回头客的建议立即购买了四瓶（最深色的蜂蜜）。我以前嗓子疼，尤其是当我早上醒来时。购买这种蜂蜜后，我睡前会喝一匙蜂蜜。这真的很棒，第二天早上确实缓解了我的喉咙痛。

此外，天然野生蜂蜜有助于减缓我的便秘问题。服用天然野生蜂蜜后，我发现肠蠕动得到改善。现在，我的便秘问题明显减轻了。

当我发现天然野生蜂蜜非常有用、功效惊人，就介绍给我的家人和朋友。他们喝了后还向我反馈说，生蜂蜜对改善夜间咳嗽和睡眠非常有效。现在他们服用生蜂蜜后很少失眠。

强烈建议您使用此蜂蜜，并且将来会继续支持。

Hit me with your best jot...

To provide you with a background to my health, I fall sick easily and succumb to flu virus at workplace. When I have fever, I can't take any medicine. That is because I am allergic to many drugs. Therefore, I can't take paradol, paracetamol, tramadol, ponstan etc. to bring down the temperature. I could only sponge myself and drink tonnes of water. And when I do see a doctor, the purpose is just to obtain a medical certificate to submit to my boss.

On one occasion, I had severe cough and chanced upon 'Natural Wild Honey' at Plaza Singapura. I bought a bottle to try it, having coughed for a month, and was desperate to end my cough. Miraculously, the cough gradually stopped after 4-5 days. On the 6th day, it stopped completely.

That proved the effectiveness of this honey. I decided to come back to buy another bottle and have been diligently taking it the first thing in the morning. I have not fallen sick for 2 years, which is unusual for me. I would definitely recommend it to anyone who is as desperate as me to look for alternative (other than medication) to prevent oneself from falling sick.

顾客见证2020年 (二)

给您提供我的健康背景，我容易生病，并在工作场所感染流感病毒。当我发烧时，我不能吃任何药。那是因为我对于很多药物都过敏。因此，我不能服用Panadol, Paracetamol, Tramadol, Ponstan 等来降低温度。我只会让自己像海绵一样，喝大量的水。我看医生的目的只是为了获得要提交给老板的病假证明。

有一次，我咳嗽得很厉害，咳嗽了一个月。在Plaza Singapura,碰巧遇到了“天然野生蜂蜜”，我就买了一瓶来试试，渴望快点止咳咳嗽。奇迹般地，咳嗽在4-5天后逐渐减少。在第六天，它完全消失了。

那就证明了这种蜂蜜的功效。我决定再回来买一瓶，一直在认真地把它当作晨起必做的第一件事。我已经两年没有生病了，这对我来说是很不寻常的。我绝对会推荐给像我这样绝望的人，寻找替代药物（药物除外）以预防自己生病。

First tried this wild honey through the recommendation of my sister. Had cough problems, which was not resolved even after trying numerous cough medicines.

So I got recommended to try this natural wild honey by my sister and read more information about this honey through the brochures.

After drinking this honey, my cough got better and I do not have to resort to medications for my cough.

I think that it is a very natural way of treating y cough as compared to taking medications, hence I continued trying this honey for a few months now.

The taste is very good as well, to someone who is picky towards the taste of drinks, this honey is really soothing to the throat and is adequately sweet.

I work in a relatively warm environment, so drinking this helps me feel more refreshed and detoxifying.

Would recommend it to friends and family to enjoy this natural and healthy honey and would continue to support natural wild honey.

首先通过姐姐的推荐尝试了这种野生蜂蜜。出现了咳嗽问题，即使试用了许多止咳药也无法解决。

因此，我接受姐姐的建议去尝试这种天然野生蜂蜜，通过阅读手册后了解了有关这种蜂蜜的更多信息。

喝了这种蜂蜜后，我的咳嗽好转了，咳嗽也不必求助于药物了。

与服用药物相比，我认为这是治疗咳嗽的一种非常自然的方式，我已尝试这种蜂蜜已几个月了，接下来会继续喝。

这野蜜口感也是很好，对于那些喝东西口味挑剔的人来说，这种蜂蜜确实可以舒缓咽喉，并且甜度刚刚好。

我在一个相对闷热的环境中工作，因此喝野蜜可以让我感觉更清爽和还能排毒。

我会推荐给朋友和家人去享用这种天然健康的蜂蜜，并将继续支持天然野生蜂蜜

Within three days of taking the honey, it had helped improved my constipation. I have been consuming the honey diligently daily for about 3 months now, my bowel movement are more regular and I rarely face constipation issue.

I believe that the honey had also helped with my acid reflux problems which I still have but the frequency of occurrence has reduced.

让我想去尝试天然野生蜂蜜的原因之一是它有助于缓解便秘。

我有便秘已经相当长的时间了，尝试过各种方法，但无济于事。

谢谢Esther，她给我详细的解释了关于蜂蜜的好处。

服用蜂蜜三天内，它就改善了我的便秘。我每天都按时服用蜂蜜约有3个月了，排便更加规律，很少出现便秘的问题。

Raw wild honey offers a lot of natural benefits for my family.

I used to cough a lot, ever since i started taking honey, my cough has reduced significantly.

It is very effective for sore throat, cough and colds, even for my children. Every time my kids are having colds or cough, all I have to do is mix a tablespoon of honey with lukewarm water and it will do the trick.

As for myself, I take 1 tablespoon of honey straight off the spoon every morning and evening before bedtime.

Because of this, we hardly take medication because honey helps build the immunity to fight diseases

I chanced upon natural wild honey during one of the past road shows and have since taken about 3 bottles of the honey. I used the honey mostly for my 4 year old kid to build his immunity. It is very effective whenever my kid has a cough as it will cut the days of coughing to 3 days instead of one full week. I mix the honey in warm water to feed him and he likes the taste. So far, his frequency of falling sick has reduced. I take the honey is when I feel a sore throat coming and it really works too! I liked how the honey is stored in glass bottles too. Because real quality honey should be stored in glass bottles. The customer service correspondents are also very friendly and provided advice on which honey is suitable for which age groups. 纯天然野生蜂蜜

我第一次购买天然野生蜂蜜时，主要是被它能天然地八天止咳所吸引。交谈中，销售人员向我介绍野蜜的功效。

由于我的儿子很容易患上支气管炎，因此他一旦咳嗽我就需要带他去看医生。他依赖药物来预防支气管炎。我买了三瓶蜂蜜给他尝尝。野蜜的功效让我印象深刻。孩子现在很少咳嗽，最重要的是，在提升他的免疫力方面，野生蜂蜜有极大的帮助。我不再需要为他购买其他补品。纯天然野生蜂蜜发挥了效用。我也学会了如何识别真正的蜂蜜。

我一定会向所有朋友介绍这野生蜂蜜。我自己也开始食用野生蜂蜜了。这真是一个了不起的天然产品。

自从我将纯天然野生蜂蜜涂抹入我的眼睛后，我的干眼症减轻了很多。

我也发现食用蜂蜜后我精力充沛。
通常，下午2点左右，我会感到疲倦。但是现在每一天，我只有在下午6点后完成工作时才有困倦的感觉。

之前干眼症发作时，我通常会滴眼药水并去看医生。但是在不断将野蜜涂抹入眼睛之后。我不再使用医生的眼药水。
我仍在继续购买这款野生蜂蜜，并会继续饮用，因为我发现这款野生蜂蜜对我健康有好处。

天然野生蜂蜜

去年年初，我们在购物中心路演中认识到纯天然野生蜂蜜，在Richard Teo先生的推荐下，我买了买3瓶送1瓶的野蜜。

服用3个月后，我们的身体健康变得更好，免疫系统得到了很大改善，我们大力推荐这野生蜂蜜，并将此产品介绍给我的叔叔和阿姨。

我妻子月经疼痛问题得到改善了很多。

对于我的女儿，较小的疾病和便秘问题也得到解决，而我自己痰、鼻涕问题也有所缓解了。

我的家人对这产品（蜂蜜）感到满意

我们将继续服用野生蜂蜜，并将其作为补品。

My friend recommended me Nature Wild Honey at the Jurong East outlet. I was recommended Nature Wild Honey from my family. Nature Wild Honey tasted different, it was very smooth unlike the other honey I have tasted. I had been suffering from constipation, high blood ~~press~~ pressure, high cholesterol and headache, after consuming Nature Wild Honey twice daily, I found that my illnesses had improved greatly. It also helped me with my insomnia and boosted my immune system. It is one of the best home remedy for cough and sore throat. I highly recommend Nature Wild Honey to my family and friends. I recommended Nature Wild Honey to my siblings, they had flatulence, gastric problems and constipation. They now aren't as bloated as before and they had reduced gastric flare ups. Their constipation problem improved gradually too. We highly recommend Nature Wild Honey to our friends and family.

我的朋友在裕廊东分行向我推荐纯天然野生蜂蜜。我家人也推荐野蜜给我。这纯天然野生蜂蜜的味道与众不同，与我品尝过的其他蜂蜜都不同，它非常滑口。每天食用两次纯天然野生蜂蜜一段时期后，我发现我的便秘，高血压，高胆固醇和头痛问题都缓解了。失眠问题也好转，我的免疫力也增强了，野生蜂蜜是治疗咳嗽和喉咙痛的最佳疗法之一。我向家人和朋友大力推荐纯天然野生蜂蜜，也向兄弟姐妹推荐这纯天然野生蜂蜜，他们有肠胃问题腹胀，胃不适和健康问题。现在他们不像以前那样会常常腹胀了，并且减少了胃酸倒流，胃部灼热之感。他们的便秘问题也逐渐得到改善了。我们大力推荐纯天然野生蜂蜜给我们的朋友和家人。

To Natural Wild Honey.

I happened to drop by at Chinatown Point one afternoon last month on 27 Nov 20 and saw a counter promoting pure natural wild honey. It got me curious as I have been wanting to find more about pure honey. The information on the internet websites were very limited and almost very general about pure honey. However, they have a detailed report of the pure honey research. On top of that I also have been introduced to other usages and benefits of pure honey.

So I bought a bottle to try to see if it will deliver the claims. I take 2 spoons as suggested in the morning before food and 1 spoon in the evening before sleep. On top of that I also used it as eyedrop. I put 3 drops for each eye. I was amazed by my first try. Although it was a little spicy feel in the eyes, my eyesight became clearer on the first time.

Also I use it as face mask after each eating session. It does help to clear my pimples. I am very happy with the result. So I came back to buy another 4 bottles to explore more benefits of the pure honey.

Thank you!

Yours sincerely,
Ivy Tan

纯天然野生蜂蜜

上个月，即11月20日，我在唐城防看到一个柜台推广纯天然野生蜂蜜。我一直想更多地了解有关纯蜂蜜的详情，因此上述景象令我感到好奇。

互联网上的信息非常有限，几乎所有有关纯蜂蜜的信息都很一般。但是，他们有一份有关纯蜂蜜研究的详细报告。更重要的是，我被告知这种纯蜂蜜的其他用途、功效和特点。因此，我买了一瓶试了一下，看是否如其所声称的那样。我被告知在早晨空腹及晚上睡前各服用2汤匙。最重要的是，我也将其用作眼滴。我在每只眼睛里滴入2滴。第一次用蜂蜜滴眼睛时，效果令我感到惊讶。尽管眼睛有点发麻，但我的视力随之就变得很清晰。

饭后我也会用蜂蜜敷脸作为面膜。它确实有助于清除青春痘。我对这蜂蜜的功效非常满意。所以我又回来，买了4瓶蜂蜜，来探索纯蜂蜜的更多好处。

谢谢！

真挚地

I am a thyroid patient and have been taking this wild honey for almost two years.

During the first year after taking the honey, my blood test result was good. Doctor was surprised and reduced my dosage to half.

Two months ago, I went for test again, my result was balanced.

Now, I am temporary off my medication completely for another six to eight months.

I guess is this natural wild honey that works on my thyroid glands issue.

I will continue to consume this wild honey and will recommend to friends.

Thank you Natural Wild Honey company.

Yours faithfully,

Zita

我是甲状腺患者，服用这种野生蜂蜜已快两年了。服用蜂蜜后一年，我的验血报告很好。对此，医生感到惊讶，并将我的药量减少一半。两个月前，我再次去验血，报告显示我的指数都很平衡。

现在，我暂时六到八个月不需要再服药了。

我想是纯天然野生蜂蜜解决了我甲状腺问题的。

我将继续食用这种野生蜂蜜，并将其推荐给朋友。

谢谢纯天然野生蜂蜜公司。

Last year, I was sharing with my mummy friend the issue of my child coughing every 3-4 weeks. She recommended Natural Wild Honey to me as she has been giving it to her children regularly and has seen an improvement in their overall immunity.

Intrigued, I immediately bought a few bottles to try.

We started giving them the lighter honey and have since progressed to the darker ones. They take one spoon before going to school and if they show any signs of falling ill, we will give them one more spoon at night. There is no need to force them to eat as it's a yummy treat.

To my delight, the frequency of coughs decreased and they hardly miss school now. *knock on wood*

We also find it helpful in maintaining overall immunity during Covid times.

Now Natural Wild Honey is part of our lives and I recommend to my friends whenever I hear of extended or frequent coughs or need to improve overall health.

去年，我向我朋友，同样也是个母亲诉苦道，我孩子每3至4周就会咳嗽。朋友向我推荐了纯天然野生蜂蜜，因为她一直定期给孩子服用这野蜜，大大提高了他们的整体免疫力。

这引起了我的兴趣，我立即就去买了几瓶野生蜂蜜来试试。

我们开始时给孩子们颜色较淡的野蜜，过一段时间后，再给孩子们颜色较深的野蜜。上学前，我都会给孩子们喝一汤匙野蜜，如果孩子们有生病的迹象，我们晚上会再给他们喝一汤匙。野生蜂蜜味道甜美，我们无需强制孩子们喝蜂蜜。

令我高兴的是，孩子们咳嗽的频率下降了，现在他们几乎不会因生病落课了。

我们还发现野生蜂蜜有助于增强人体免疫力，尤其在这瘟疫时期。

现在，纯天然野生蜂蜜已成了我们生活的一部分。每当我听到朋友久咳不愈或经常咳嗽或说想要改善整体健康状况时，我都会建议他们服用天然野生蜂蜜。

老实说，我想分享我服用这纯天然野生蜂蜜给我带来的益处。我叫Rohin Jamal，今年67岁。我服用这种天然野生蜂蜜已近7个月了。在那之前，我确实服用过很多种野蜜。但我发现这种天然野生蜂蜜是最好的。因为自从我服用这种纯天然野生蜂蜜以来，我比以前更强壮了，这是说老实话，直到2020年12月，我一直都没有发烧，喉咙疼和失眠，之前我每年至少3次会发烧、喉咙痛或失眠。现在我每天早晨睡醒觉都没这问题，在工作场所我总是乐呵呵的。
